About

Daiga is a work and employment researcher with strong quantitative skills and extensive experience of using large and complex data sets. Her work is part of the Workforce and Quantitative research stream at the Third Sector Research Centre. The current focus for her research interest is third sector workforce, volunteering and the effects of volunteering on employability.

Qualifications

- PhD (Social and Political Sciences), University of Cambridge (2009)
- MPhil (Social and Development Psychology, University of Cambridge (2003)

Biography

Daiga is an experienced lecturer in psychology, organisational behaviour and human resource management and has been teaching at various universities in the UK and abroad for more than fifteen years. She also has been involved in HRM, training and development consultancy, data collection and analysis consultancy work for numerous private and public organisations

Research

The current focus for Daiga's research interest is third sector workforce, volunteering and the effects of volunteering on employability.
