

Neurobiology of Psychological Processes

Credits: 10

Assessment: 2000 word essay – specialist area chosen by you

This module will introduce you to current concepts, theories and controversies in our understanding of the biological basis of processes of the mind and behaviour. Building upon your core knowledge of psychology and the neurosciences, you will explore topics such as, perception, emotion, aggression, sex, sleep, learning, memory, and language. You will identify an area of particular interest for independent in-depth study which will be assessed by a 2000-word essay (submitted in early January). Individual supervisions will be available for anyone who needs guidance in terms of direction and defining topics for your essay.

[Study here and find out why the University of Birmingham was awarded The Times and The Sunday Times University of the Year 2013-14 \(http://www.birmingham.ac.uk/news/latest/2013/09/20-sep-Birmingham-announced-as-University-of-the-Year.aspx\)](http://www.birmingham.ac.uk/news/latest/2013/09/20-sep-Birmingham-announced-as-University-of-the-Year.aspx)

Entry requirements

International students:

Depending on your chosen course of study, you may also be interested in the Birmingham Foundation Academy, a specially structured programme for international students whose qualifications are not accepted for direct entry to UK universities. Further details can be found on the **[foundation academy web pages \(http://www.birmingham.ac.uk/students/foundation-academy/Pathways/index.aspx\)](http://www.birmingham.ac.uk/students/foundation-academy/Pathways/index.aspx)**.
