

Human Computer Interaction

School of Computer Science

College of Engineering and Physical Sciences

Details

Code 22133

Level of study Third/Final year

Credit value 10

Semester 1

Module description

The module will explore some major themes in HCI, from both a theoretical and a practical perspective. It offers students a practical domain in which to apply knowledge and skills, including those from other modules, to the design, implementation and analysis of interfaces between people and computer systems.
