

New Staff in Chemistry, July–November 2013

Posted on Monday 18th November 2013

The School of Chemistry has made a number of excellent appointments over the past couple of months:

Dr Parvez Iqbal

(<http://www.birmingham.ac.uk/research/activity/chemical-engineering/energy-chemical/nanoengineering-surface-chemistry/parvez-iqbal.aspx>) Research Fellow

Research themes:

- Self-assembly of nanostructures using self-assembled monolayers.
- Use of Peptides as means of Drug deliver/therapy.
- Synthesis of array of molecules such as thiols, thiophenes and azobenzenes.

Other appointments include:

- Mr Mark Dutton, Teaching Support Administrator & Laboratory Assistant
- Dr Parvez Iqbal, Research Fellow
- Mr Sridhar Neelamraju, Research Fellow
- Mr Simon Neville, Research Fellow
- Iakov Polyak, Marie Curie Research Fellow
- Dr Gareth Richings, Research Fellow
- Dr Yafei Wang, Marie Curie Research Fellow
