### Dalbir Kang presents - "Moving Swiftly On" - Mobile Learning

**Fact:** Students love Smartphones!

Nowadays approximately 55% of students in the UK own a Smartphone.

The rise in the popularity of Apple, Android and Microsoft phones has created huge demand from students for "on the go" access to learning resources on their mobiles. The challenge for HE institutions is to adapt to this trend by seeking new ways to provide engaging, educational materials for this new medium.

Come along to this session to find out about and discuss some of the new initiatives that we're looking at as we work towards providing a comprehensive range of Mobile Learning resources.

## Register your interest in attending one of our training events...

Registration is not required to attend our training events, however we would appreciate if you could take the time to complete the form below.

**\*Required**

**Name \***

**Email address \***

**Telephone number**

**Which event would you like to attend? \***

If you would like to attend more than one event, please complete this form multiple times

*Never submit passwords through Google Forms.*
