Education and awareness needed to combat 'global epidemic' of liver disease (/news/thebirminghambrief/items/2014/10/education-needed-to-combat-liver-disease-30-10-14.aspx)

Despite significant advances in our knowledge of how to diagnose and treat chronic liver disease, we are currently experiencing a global epidemic in cases. In Europe alone, 29 million people suffer from chronic liver disease, and this rapid upward trend is reproduced in England, where liver disease is one of the leading causes of premature mortality.
