Terms of Reference
The Research Committee has oversight of matters related to research policy and strategy at the University. Key responsibilities are:

- To provide UEB with advice on research at the University, for example, through the effective articulation of a powerful research vision in the University's Research Strategy.
- To position the University's research at the forefront of national and international developments, both taking account of and shaping future agendas.
- To ensure the University's voice is heard at influential research organisations, such as the Research Councils.
- To identify, promote and disseminate good practice in the management of research within the University and also to promote research successes internally and externally.
- To advise on and monitor progress towards University Research targets.

Dates of Meetings
The 2013-14 meeting dates are:
