

Academic Services

"World leading universities need services to match their ambitions and the ambitions of staff and students. Academic Services is proud of its role in informing, influencing and delivering against this agenda."

Brendan Casey, Director of Academic Services and College Administration

Academic Services is at the heart of education and research endeavour at the University. We inform and influence the development and delivery of a range of activities throughout the staff and student lifecycles and provide support and advice to all staff and to students, enabling them to undertake their responsibilities effectively.

Additionally, we seek to deliver on a range of transformational projects across the University; we also ensure that the activities of the University are conducted in accordance with the University's own procedures and regulations and in compliance with external legislative requirements.
