

Creative Media

Creative media brings together four distinct, yet collaborative departments; Central Print and Bindery, Design and Publications, Distribution Centre and Media Centre.

The Central Print and Bindery provides professional printing, copying and binding services quickly, conveniently and at the highest standards, in an expansive range of formats and materials.

Design and Publications provides professional quality design, editorial and print production services including creative concepts, brand management, print management and editorial advice.

Distribution Centre offers a bulk mailing and fulfilment facility, delivering what you want where you want; with a large storage space that allows easy access to virtually any University-produced publication.

Media Centre is a professional television and radio studio and media training facility with a portfolio of high-profile commercial clients.
