

Support site is here

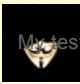

Posted: Monday 20th June 2011

Blog: [Web support blog \(/websupport/blog\)](#)

It's taken a while for this website to become a priority but finally we have some web support pages for users of Contensis CMS. These pages are currently a bit of a brain dump of all the information that may be useful to someone across campus but over the coming months we hope to improve on this and add further resources, training videos, proofs of concepts and anything else that you might find useful.

Please **feed back** (<http://www.bhamtest1.bham.ac.uk/websupport/feedback.aspx>) on any articles that are currently not clear enough and let us know what you would like to see on this site in the future.
