

January 2012 Newsletter

Welcome Back

I trust everyone had a good break and have recharged their batteries. We will be having two new students joining us in February so I will introduce them to you in the next Newsletter.

Exams

In case you have forgotten, then exams start on Monday for the week. Richard will write to you at the end of February with an updated list of module marks so you can assess your progress.

Coniston

If you want to go to Coniston in May, then please get a £50 returnable deposit to Richard ASAP to reserve your place.

EngD Conference

Kathleen will shortly be asking you for Talk Titles and a two page Abstract. Please ensure that these are approved by your sponsoring company before submitting. Remember this may well take 2-3 weeks to gain approval so please be professional in your timings.

For those of you that will be going through the formal progression stage, I will be allocating assessors this month and Lynn Draper will forward instructions for the report. Ideally you should have your interview during the conference period.

Other Conferences

If you are intending to attend the UK Particle Technology Forum in Loughborough or the Inform Conference in Barcelona, then please note the abstract deadline is very soon.
