Queen's Prize

By now you should have heard that we have won the Queen's Prize for Education which was written around the EngD and its collaboration with industry. We could not win such prestigious prizes without your hard work and your sponsors' support, so thank you.

Exams

The Exam Timetable has been published for the 2nd week of January so please check when your exam is (see below). For those of you working on the Measurement Techniques essay then please get a hard copy to me by January.

Exams to be held in Chem Eng Rooms 111 / 112		
Day	Module	Time
Monday 9 th January	Process Engineering Fundamentals	09.30-11.30
Tuesday 10 th January	Bioreaction Engineering	09.30-11.30
Wednesday 11 th January	Molecular Delivery	09.30-11.30
Thursday 12 th January	Bioscience for Engineers	09.30-11.30
Friday 13 th January	Colloid Chemistry and Rheology	09.30-12.30

Conferences

As well as the EngD Conference, I would like as many of you as possible to attend the UKPTF11 in Loughborough and the Nano Formulations Conference in Barcelona. Ideally you should use the same Abstract/Poster/Talk for all these events. In order to aid my planning, can you let me know if you intend to attend either conference.

Coniston

Please get your deposit cheques to John Hooper before Xmas as otherwise I will extend the invitation to other Chem Eng students. I can't guarantee to run this in 2013 so this might be your only chance!

Xmas Holidays

Please let your Industrial and Academic Supervisors know when you will be away on holiday and I wish you all a Merry Christmas and a Happy New Year.
