

## August Newsletter

Welcome to this months Newsletter covering the following items:

- **Queen's Award**
- **Re-sits**
- **Next Year's Timetable**
- **New Projects**

### Queen's Award

We have been selected to be the University of Birmingham's entry for the Queen's Award in 2011. This will mean that I will require certain information from you such as publications, conferences attended, etc, so please respond quickly. This information will also be required for the EPSRC Review also next year.

### Re-sits

Anyone with a re-sit should have received an email with the time and date. If in doubt contact John Hooper.

### Next Year's Timetable

I will release the timetable to you all once I know it myself. But it will essentially be the same running order as last year so you can make rough plans.

### New Project

We have about nine new projects to fill and I think we will have started about twenty projects in the first year of the Industrial Doctorate and am in discussions with companies for six more projects leaving only about 15 to fill, so if your sponsors are interested in another EngD Project with us then they need to be thinking about projects now before the money runs out.

Enjoy your holidays and I will catch up with you all soon.
