

## **November 2011 Newsletter**

### **New Students**

Please welcome the following students who have recently joined us:

- Alistair Green working with Rich Foods
- Aristodimos Lazidis working with Nestle

### **EngD Conference**

**Date and Venue:** The confirmed dates for the Conference next year are 16<sup>th</sup> – 18<sup>th</sup> April. The Dinner will be on the evening of Monday 16<sup>th</sup> April at Hornton Grange, followed by the presentations Tuesday 17<sup>th</sup> and Wednesday 18<sup>th</sup> April in Room 124 in Chem Eng. The poster session will be on Tuesday 17<sup>th</sup> in the Atrium. The Agenda will be sent out after the Christmas break. Please inform your Industrial Supervisors.

**Presentations:** The presentations will be as follows:

Posters will be given by EngDs who started in September 2011 onwards

15 min talks will be given by EngDs in their 2<sup>nd</sup> Year

25 min talks will be given by EngDs in 3<sup>rd</sup>/4<sup>th</sup> Year

All EngDs will be required to submit an abstract of their presentation/poster. Instructions and an example will be circulated after Christmas.

### **NanoFormulation 2012**

Please see below for information on this Conference which you may be interested in attending. This is an international Formulation Science Conference bringing together science, industry trends and networking at its best.

**NanoFormulation2012** - Integrating Nanomaterials in Formulations

The third & final international conference organised by the FSTG & InForm

[Call for papers](#)

**NanoFormulation2012 Website**

Following on from the successes of NanoFormulation2010 (Stockholm) and NanoFormulation2011 (Singapore) we are pleased to announce the forthcoming NanoFormulation2012 conference in Barcelona, 28 May – 1 June 2012. NanoFormulation2012 will share the best practices on the use of nanomaterials in formulations. The formulation of materials at the nanoscale is scientifically challenging requiring novel physico-chemical and technological approaches. Nanoparticles, novel in size, shape or surface chemistry, offer very attractive functional properties to a range of formulated products, from drug delivery system to coatings and cosmetics. Nanotechnologies are likely to offer a wide range of economic benefits as nanoformulation scientists unlock the potential of formulated products. NanoFormulation2012 offers

delegates a traditional conference program and also the opportunity to participate in structured networking events and a Trade Day. Limited travel bursaries are available to researchers and applications will be accepted shortly.

To join InForm and to access features for registered users such as post-conference presentations please register at <http://www.nanoformulation.eu/>
