Conference papers

2. C.J. Baker, C.G. Robinson, 1988 "The assessment of wind tunnel testing techniques for ground vehicles in cross winds" BBAA Conference, Kyoto, Japan
4. C.J. Baker, N. Brockie, 1989 "Wind tunnel tests to obtain train aerodynamic drag coefficients - Reynolds number and ground simulation effects", 8th Colloquium on Industrial Aerodynamics, Aachen
prediction of wind loading on roofs" IAWE European and African Regional Conference, Guernsey
34. C J Baker, N Humphreys, 1994 "Assessment of the adequacy of various wind tunnel techniques to obtain aerodynamic data for ground vehicles in cross winds" Wind Engineering Society Conference, Warwick
35. C.J. Baker, D.M. King, 1995 "The interaction of wind and waves in the surf zone" Proc 9th International Conference on Wind Engineering, Dehli
40. W. Pearce, C.J. Baker, 1996 “Wind tunnel tests on the influence of vehicular motion on
pollutant dispersion in an urban street canyon” BBAA3 Conference, Blacksburg, Virginia

60. M.P. Straw, C.J. Baker, 1998 “Modelling wind induced ventilation of structures” Wind Engineering Society Conference, Bristol
67. C.J. Baker, 1999 “Aspects of the use of the technique of orthogonal decomposition of surface pressure fields” Proceedings 10th International Conference on Wind Engineering, Copenhagen, Balkema
69. A.D. Quinn, C.J. Baker, N.G. Wright, 2000 “The measurement and codification of forces on portable road signs” BBAA Conference, Bochum
73. C.J. Baker, 2000 "Unsteady wind loading on a wall", BBAA Conference, Bochum
Conference on Wind Engineering, Eindhoven, Holland 443-450

P. Berry, J. Spink, R. Sylvester-Bradley, A. Pickett, M. Sterling, C.J. Baker, N. Cameron, 2002 "Lodging control through variety choice and management" HGCA Conference, Agronomic intelligence; the basis for profitable production, Coventry

C.J. Baker, E. Canepa, A. Sanz-Andres, 2002 “Pollution dispersion below the urban canopy” in Impact of wind and storm on city life and the built environment, Proceedings of the COST C14 Workshop, CSTB, Nantes, 48-59

T. Huggins, C.J. Baker, R.P. Kinnersley, 2002 “Wind and vehicle induced turbulence very close to a road surface”, Wind Engineering Society Conference, Nottingham

M. Sterling, C.J. Baker, P.M. Berry, 2003 “Experimental analysis of the wind induced failure of wheat crops”, Proceedings of the Conference on Wind Effects on Trees, Karlsruhe

C.J. Baker, 2004 “Wind effects in the urban environment – considerations for human health, comfort and safety”, ISWE Tokyo, Japan

C.J. Baker, 2004 “The slipstreams and wakes of cars and lorries”, COST C14 Conference, Brussels

A. McConville, M. Sterling, C.J. Baker, 2007 “An introduction of the scaling issues associated with the physical simulation of thunderstorm downbursts”, International Conference on Wind Engineering, Cairns, Australia

C.J. Baker, A. Bouferrouk, J. Perez, S.D. Iwnicki, 2008 “The integration of cross wind forces into train dynamic calculations”, World Congress on Rail Research, Seoul, S Korea

K. Dobney, C.J. Baker, A D. Quinn, L. Chapman, 2008 “Quantifying the Effects of High Summer Temperatures due to Climate Change on Buckling and Rail Related Delays in the UK”. World Congress on Rail Research, Seoul, S Korea

N. Gil, C.J. Baker, C. Roberts, D. Hargeaves, 2008 “The measurement of train slipstream characteristics using a rotating rail rig” Bluff Body Aerodynamics and its Applications”, Milano, Italy

C.J. Baker, 2008 “The flow field around high speed trains”, Keynote lecture, Bluff Body Aerodynamics and its Applications”, Milano, Italy

H Hemida, C Baker (2011),” The calculation of train slipstreams using Large Eddy Simulation techniques”, World Congress of Rail Research, Lille

C Bouch, C Baker and 18 other authors (2011) “Future Resilient Transport Networks (FUTURENET). An Overview of the FUTURENET Project with Particular Reference to Railway Aspects”, World Congress of Rail Research, Lille

M Sima, E Grappein, M Weise, N Paradot, M Hieke, C Baker, R Liciardiello, M Couturier (2011) “Presentation of the EU FP7 AeroTRAIN project and first results”, World Congress of Rail Research, Lille

C Baker, T Gillbert, S Jordan (2013) “The validation of the use of moving model experiments for the measurement of train aerodynamic parameters in the open air”, World Congress on Rail Research, Sydney, Australia

D. Soper, C. Baker and M. Sterling (2014) “Assessing crosswind effects on a container freight train with differing container loading configurations”, First international conference in numerical and experimental aerodynamics of road vehicles and trains (Aerovehicles 1), Bordeaux, France

D. Soper, C. Baker and M. Sterling (2014) “A comparison of model and full scale experimental data to assess the suitability of analysing slipstream development of a container freight train using the TRAIN rig facility”, First international conference in numerical and experimental aerodynamics of road vehicles and trains (Aerovehicles 1), Bordeaux, France

A.D. Quinn, C.J. Baker * and M. Gallagher (2014) “The measurement of aerodynamic phenomena in operational conditions on a rail vehicle”, First international conference in numerical and experimental aerodynamics of road vehicles and trains (Aerovehicles 1), Bordeaux, France

C Baker (2015) A comparison of full scale and model scale measurements of train
aerodynamic characteristics, IMechE Stephenson Conference

169 C J Baker, H Hemida, AD Quinn (2016) “The Operation of Trains through Flood Water”, World Congress on Rail Research, Milan

Driven rain on railway station platforms and mitigation through canopy design”, European and African Conference on Wind Engineering, Liege

C Baker, M Sterling (2018) “A framework for the design of structures loaded by small-scale wind systems”, International Workshop on Wind-Related Disasters and Mitigation, Tohoku University, Sendai, Japan

D Soper, C Baker (2018) “Full scale investigation of train aerodynamic flows”, Third international conference in numerical and experimental aerodynamics of, road vehicles and trains (Aerovehicles 3), Milano, Italy

Pedestrians and cyclists in urban areas in windy conditions”, Wind Engineering Society Conference.
