# BSC COMPUTER SCIENCE WITH DIGITAL TECHNOLOGY PARTNERSHIP – 4 YEARS

Do you want a traditional university degree, but would like to start earning a salary now?  
Do you have a strong work ethic and can be disciplined with your study?  
Do you want to start your technology career with a leading employer?

If you answered yes to any of the questions above then this new and exciting degree could be right for you.

# BSC COMPUTER SCIENCE WITH DIGITAL TECHNOLOGY PARTNERSHIP – 4 YEARS

This four-year programme, designed in partnership with PwC, will allow you to receive an outstanding education from one of the UK's top ten Computer Science departments, whilst also gaining work experience with PwC's Tech teams during placements. On these placements, you will get to work with some of the biggest brands in the world, and the work itself can often be front page news. You will spend your first and second year at University, undertaking placements at PwC outside of term-time and your whole third year will be spent working at PwC, before you return to University for your fourth year.

## Additional assessment

Suitable applicants will also have to complete a supplementary application form, and will be invited to an assessment day at the University. This will give you a chance to find out more about the programme, tour our campus, and meet current staff, students and colleagues from PwC.

## WHY IS THIS COURSE FOR ME?

### Unique

This four-year programme is one of a kind – be the first to take this opportunity to study and work at the same time, whilst specialising in Technology.

### Earn a salary while you learn

All your University tuition fees are fully funded by PwC, and as a PwC employee, you'll receive a salary each month.

### Graduate opportunity

Achieve a 2:1 at the end of your Level 6 degree apprenticeship and you'll secure your future at PwC.

### Work placements

There will be plenty of time whilst at PwC to gain practical experience. You'll work on cutting-edge digital and technology client work.

### Support

You'll be fully supported, both at University and work, with buddies, mentors, people managers and peers.

## ENTRY REQUIREMENTS

AAA with an A in Mathematics, from three A levels or equivalent (excluding General Studies and Critical Thinking), and a C or above in GCSE English.

**Please note this programme is only available to UK/EU students.**

This leaflet was written several months in advance of the start of the academic year. It is intended to provide prospective students with a general picture of the programmes and courses offered by the School. Please note that not all programmes or all courses are offered every year. Also, because our research is constantly exploring new areas and directions of study, some courses may be discontinued and new ones offered in their place.
