

### **1x Postdoc and 1x Research Assistant Positions: Regulation of Cell Death and Tissue Homeostasis**

Two research positions (one postdoc and one part-time research technician) are available in the laboratory of Dr Yun Fan in the School of Biosciences at the University of Birmingham, United Kingdom.

Current research in the laboratory focuses on 1) to identify and characterize novel regulators of apoptosis-induced cell proliferation, a phenomenon relevant to regeneration and cancer; and 2) to understand regulated necrosis *in vivo*. Our approach is to combine *Drosophila* genetics with molecular, biochemical and imaging techniques.

Postdoc applicants must have a relevant PhD (or a PhD near completion), while Research Assistant applicants must have a BSc (or equivalent) in Biological Sciences. Experience with *Drosophila* genetics, molecular biology, immunohistochemistry, confocal microscopy and biochemical techniques would be preferred. Highly motivated candidates are encouraged to apply.

These are fixed-term appointments, available from 16<sup>th</sup> September 2019, for up to three years. Detailed job description and how to apply online are available at <http://www.birmingham.ac.uk/staff/jobs/index.aspx> (searching for job posts 81510-Postdoc and 81450-Research Assistant).

Closing date for applications: 18 August 2019

Planned interview dates: 3<sup>rd</sup> – 4<sup>th</sup> September 2019

Any enquiries please contact Dr Yun Fan ([y.fan@bham.ac.uk](mailto:y.fan@bham.ac.uk))
