  - meet the University of Birmingham entry requirements
  - study in the School of Geography, Earth and Environmental Sciences for two years
  - graduate with a dual degree after successfully completing their undergraduate studies

### Scholarships

All students accepted through the partnership will be offered a scholarship equivalent to 20% of the annual course tuition fee.

### BSc Environmental Science at Birmingham

- The course is accredited by the Institution of Environmental Sciences (IES)
- We offer a wide choice of specialist modules which allow students to follow their own interests
- Teaching is delivered in a vibrant research-led environment by internationally-recognised specialists
- Field work opportunities are available in England, Wales, Malta, Portugal or Tenerife (depending on module choices)
- Practical work will help students to develop their research skills
- Opportunity to study a Professional Placement module
- The final year independent research project can be linked to volunteering opportunities, work placements or our internationally renowned research groups
- Studying in the UK will help students to develop a more independent learning style in the enquiry-based British education system
- Many students go on to study at MSc or PhD level at Birmingham or at other top 50 institutions

The University of Birmingham is proud of its long history of engagement with China. Li Siguang, one of our most famous Chinese graduates obtained his BSc, MSc and PhD at Birmingham. Located in the heart of England, the University is only around one and a half hours from London by train. We are part of the Russell Group (akin to the American Ivy League) of research-intensive UK universities. We are ranked among the top 100 universities globally (QS World Rankings) and around 15th in the UK (*The Times/The Sunday Times/The Guardian*).

The School of Geography, Earth and Environmental Sciences is one the largest UK schools specialising in the environment, delivering internationally-excellent teaching and research across a broad range of environmental issues. The School comprises over 1,000 students taught by over 80 academic staff members, delivering programmes at both undergraduate and postgraduate levels, and covering aspects of environmental sciences from climate change to environmental health.

Our 2+2 partnership allows students who begin their studies in China to finish their studies at the University of Birmingham and achieve a dual degree – BS Environmental Science from Sun Yat-sen University and BSc Environmental Science from the University of Birmingham.

## Entry requirements for Birmingham

Students on the following courses at Sun Yat-sen University are eligible to apply for Environmental Science at Birmingham:

- BS Environmental Science
- BS Environmental Engineering

Your choice of optional modules at Birmingham may depend on the modules you have studied in China.

Students will also need to meet the normal entry requirements for English language:

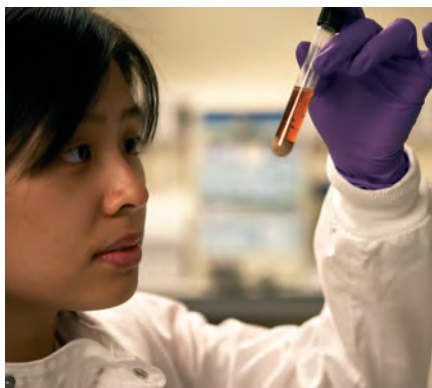

- IELTS 6.0 with no less than 5.5 in any band
- Pearson Test of English (PTE) 51 in all four skills

Students should normally take their English language test in time to provide the University with the results by the end of June, to start their course in September.

To apply students require 75% overall from Year 1. Offers are also conditional on achieving 75% overall in Year 2.

## Living in Birmingham

The city of Birmingham has many attractions including its culture and entertainment, the retail experience, an international airport and good rail links to other parts of the UK and the world. The city is located at the heart of some of the UK's most beautiful countryside. The University's attractive campus, with its striking red brick architecture and open green spaces is located just five kilometres from the city centre.

The Chinese quarter in the city centre has a range of Chinese supermarkets and restaurants. Undergraduate students in their first year at the University of Birmingham live in halls of residence only a short walk from the main campus. The living cost in Birmingham is relatively inexpensive compared to other metropolitan cities in the UK and Europe.

'Joining the Birmingham 2+2 programme is one of the best decisions I've ever made. The courses offered are taught by top researchers in the UK and we have plenty of opportunities to undertake independent research. My two years at Birmingham have really opened my eyes to the frontier of research and helped me to think creatively. The programme and the reputation of the University of Birmingham have also given me great advantages in my graduate school applications. I have received full scholarship PhD offers from a number of top institutions.'

## 伯明翰生活

伯明翰这座城市有许多吸引人的地方：多元化的文化和娱乐活动，重要的商业中心（有欧洲最大的购物中心），现代化的国际机场和发达的铁路网通向英国和世界的每个角落。伯明翰大学的校园被认为是英国最好的校园之一，校园里绿树成荫，建筑错落有致，带着浓郁的古世纪风格，距离伯明翰市中心只有5公里。位于市中心的中国城有多家中国超市和餐馆。所有本科生在伯明翰大学读书的第一学期间都可以住在离主校区很近的学生公寓。伯明翰的生活消费水平与其他英国和欧洲的大都市比较相对便宜。
