

# Create Your Own Peg Pterosaur!

## Introduction

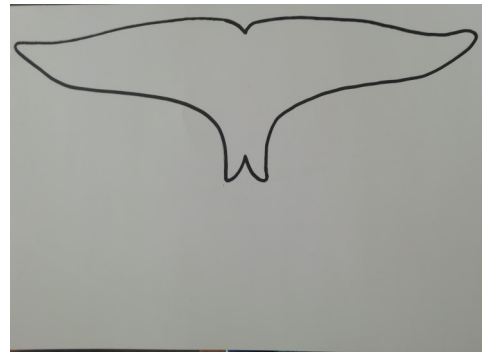

Pterosaurs were flying reptiles which ruled the skies during the time of the dinosaurs. They lived 252 million - 65 million years ago during the Triassic, Jurassic and Cretaceous. Follow these instructions and create your very own peg pterosaur to hang around your home!

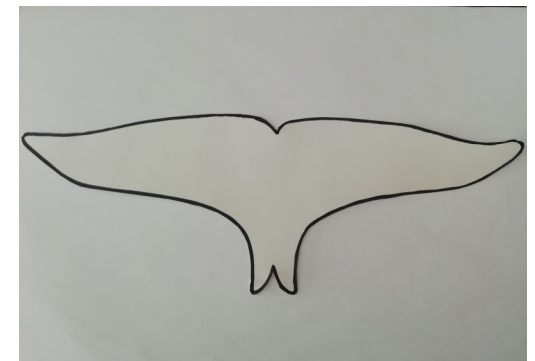

### You will need:

- Paper or card
- Scissors
- A peg
- 2 pipe cleaners
- Glue
- Pens / pencils to decorate
- Googly eyes (optional)

## Steps

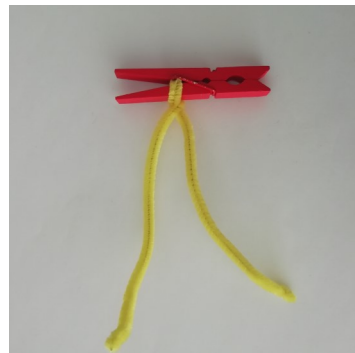

1. Trace this shape onto your piece of paper or card. Use our template to help

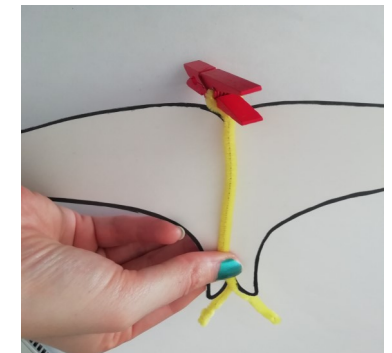

2. Cut out the shape, This forms the wings and body of your pterosaur

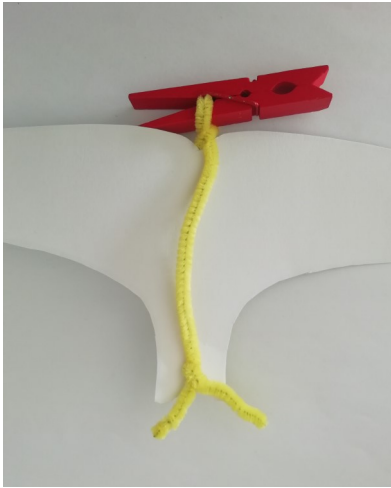

3. Take one of the pipe cleaners and thread it through the spring of the

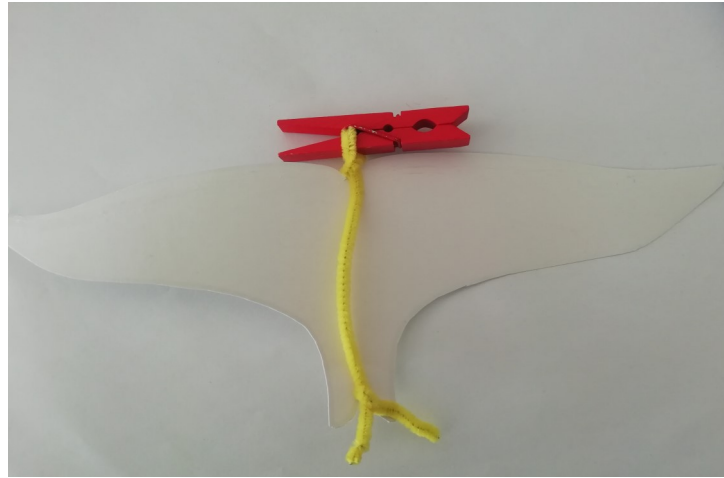

4. Make sure the peg is half way along the pipe cleaner. Twist the pipe cleaner to secure it to the peg

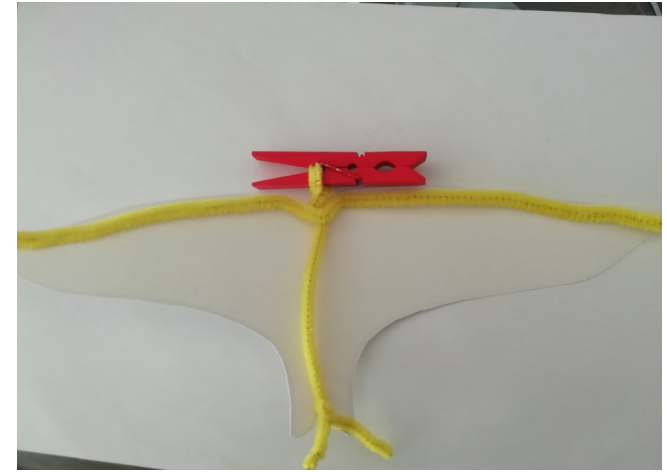

5. Slip the cardboard body between the pipe cleaner

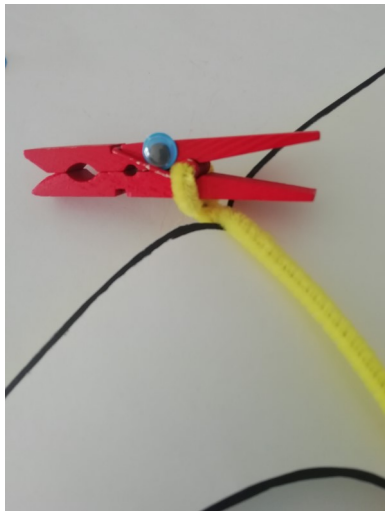

6. Turn over your pterosaur and twist the end of the pipe cleaner. These are the

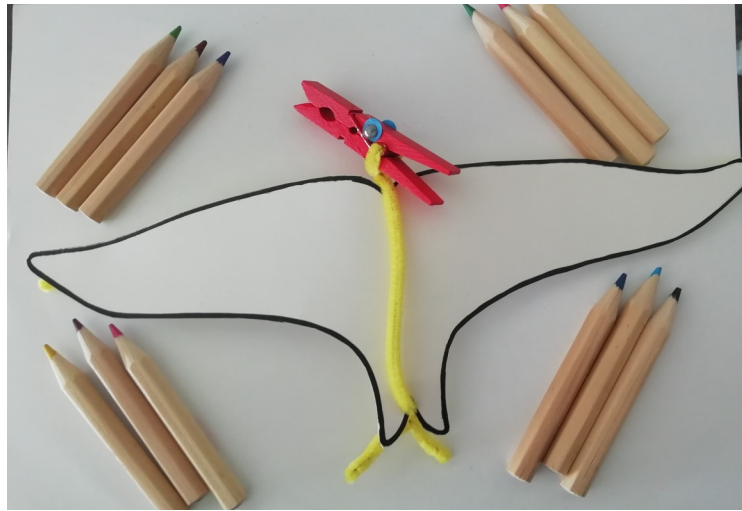

7. On the underside of the pterosaur, glue along the top of the wings.

8. Press the second pipe cleaner along this gluey line

9. Add your googly eyes or draw them on with a felt tip pen

10. Now you can decorate your pterosaur!
