Publications in international journals

1. Declarative memory consolidation in humans: a prospective functional magnetic resonance imaging study.
   Proc Natl Acad Sci U S A. 2006 Jan 17;103(3):756-61 (9.4)

2. Daily physical activity counts vs structured activity counts in lean and overweight Dutch children.
   Physiol Behav. 2007 May 22 (3.3)

3. Changes in cerebral blood volume and amyloid pathology in aged Alzheimer APP/PS1 mice on a docosahexaenoic acid diet or cholesterol enriched Typical Western Diet.
   Neurobiol Dis. 2007 Jun 18 (4.5)

4. Leptin-adiposity relationship changes, plus behavioral and parental factors, are involved in the development of body weight in a Dutch children cohort.
   Rutters F, Nieuwenhuizen AG, Vogels N, Bouwman F, Mariman E, Westerterp-Plantenga MS.
   Physiol Behav. 2008 March 18; 93 (4-5); 967-74 (3.3)

5. The hypothalamic-pituitary-adrenal-axis in the regulation of energy balance.
   Rutters F, Nieuwenhuizen AG.
   Physiol Behav. 2008 May 23; 94 (2): 169-77 (3.3)

6. Acute stress-related changes in eating in the absence of hunger.
   Rutters F, Nieuwenhuizen AG, Lemmens SG, Born JM, Westerterp-Plantenga MS.
   Obesity 2009 Jan;17(1):72-7 (3.4)

7. Hyperactivity of the HPA axis is related to dietary restraint in normal weight women.
   Rutters F, Nieuwenhuizen AG, Lemmens SG, Born JM, Westerterp-Plantenga MS.
   Physiol Behav. 2009 Feb 16;96(2):315-9 (3.3)

8. The relationship between leptin, gonadotropic hormones, and body composition during puberty in a Dutch children cohort.
   Rutters F, Nieuwenhuizen AG, Verhoef SP, Lemmens SG, Vogels N, Westerterp-Plantenga MS.

9. Eating what you like induces a stronger decrease of 'wanting' to eat.
   Lemmens SG, Schoffelen PF, Wouters L, Born JM, Martens MJ, Rutters F, Westerterp-Plantenga MS.
   Physiol Behav. 2009 Sep 7;98(3):318-25 (3.3)

10. Hypothalamus/Pituitary/Adrenal (HPA) axis functioning in relation to body fat distribution.
    Rutters F, Nieuwenhuizen AG, Lemmens SG, Born JM, Westerterp-Plantenga MS.
    Clin Endocrinol (Oxf). 2010 Jun;72(6):738-43 (3.2)
11. Acute stress and food-related reward activation in the brain during food choice during eating in the absence of hunger.
Born JM, Lemmens S, Rutters F, Nieuwenhuizen A, Formisano E, Goebel R, Westerterp-Plantenga MS.

12. Dietary Restraint and Control Over "Wanting" Following Consumption of "Forbidden" Food.
Lemmens SG, Born JM, Rutters F, Schoffelen PF, Wouters L, Westerterp-Plantenga MS.
Obesity (Silver Spring). 2010 Oct;18(10):1926-31 (3.4)

Rutters F, Lemmens SG, Born JM, Bouwman F, Nieuwenhuizen AG, Mariman E, Westerterp-Plantenga MS.
Patient Educ Couns. 2010 Jun;79(3):367-71 (2.4)

14. Sleep duration and body-weight development during puberty in a Dutch children cohort.
Rutters F, Gerver WJ, Nieuwenhuizen AG, Verhoef SP, Westerterp-Plantenga MS.

15. Effects of single macronutrients on serum cortisol concentrations in normal weight men.
Martens MJ, Rutters F, Lemmens SG, Born JM, Westerterp-Plantenga MS.
Physiol Behav. 2010 Dec 2;101(5):563-7 (3.3)

16. Stress augments food 'wanting' and energy intake in visceral overweight subjects in the absence of hunger.
Lemmens SG, Rutters F, Born JM, Westerterp-Plantenga MS.
Physiol Behav. 2011 2011 May 3;103(2):157-63 (3.3)

17. Associations between anthropometrical measurements, body composition, single nucleotide polymorphisms of the Hypothalamus/Pituitary/Adrenal (HPA) axis and HPA axis functioning.
Rutters F, Nieuwenhuizen AG, Lemmens SG, Bouwman F, Mariman E, Westerterp-Plantenga MS.
Clin Endocrinol (Oxf) 2011 Jun;74(6):679-86 (3.2)

18. Associations between a single nucleotide polymorphism of the FTO gene (rs9939609) and obesity related characteristics over time during puberty in a Dutch children cohort.
Rutters F, Nieuwenhuizen AG, Bouwman F, Mariman E, Westerterp-Plantenga MS.
The Journal Clinical Endocrinology & Metabolism 2011 Jun;74(6):679-86 (6.2)

19. Effects of sleep fragmentation on energy expenditure, substrate oxidation and activity measured in healthy men over 48h in a respiratory chamber.
Hursel R, Rutters F, Gonnissen HKJ, Martens EAP, Westerterp-Plantenga MS
American Journal of Clinical Nutrition 2011 Sep;94(3):804-8 (6.3)

20. High HPA-axis activation disrupts the link between liking and wanting with liking and wanting related brain signaling.
Born JM, Martens MJ, Rutters F, Lemmens SG, Goebel R, Westerterp-Plantenga MS.
Physiol Behav. 2011 in press (3.3)
Submitted articles

21. Inter-individual relationships between energy balance and SWS+REM sleep in normal weight men measured over 48h in controlled conditions in the respiration chamber Rutters F, Gonnissen H, Hursel R, Lemmens SG, Martens E, Westerterp-Plantenga MS.

22. Effects of sleep disturbance on insulin sensitivity and satiety in a controlled metabolic unit Gonnissen HKJ, Hursel R, Rutters F, Martens EAP, Westerterp-Plantenga MS
