Fellowships / Individual Awards
September - November 2012

Included are the funding opportunities for Sept - Nov, further details can be found at the weblinks supplied or via contacting Catherine Moore (c.a.moore.2@bham.ac.uk)

**Deadlines**

**Alzheimer’s Research UK**

Sabbaticals and Secondments

The scheme enables established researchers to enrich their research programmes and develop collaborations. Awards are worth a maximum of £50,000 for a period of up to one year.

http://www.alzheimersresearchuk.org/grant-schemes/

**Arthritis Research UK**

Clinician Scientist Fellowships

These are awarded to medical graduates who have completed their first period of research training (in most cases having obtained a PhD) and who are committed to a career in academic medicine. Awards provide a combination of clinical training with a period of postdoctoral research in any discipline relevant to arthritis and related musculoskeletal diseases. Fellowships will last between three and five years. Fellows will be paid on the specialist registrar scale at their current level and may apply for technical support in addition to running expenses and equipment.

Senior Research Fellowships

These are awarded to outstanding medical or science graduates committed to a research career in any discipline relevant to arthritis and related musculoskeletal diseases who do not hold an established academic post. Applicants should have between six to 12 years' postdoctoral experience and proven ability in establishing an independent research programme. They should be based in a multidisciplinary environment in a UK university department or research institute.

http://www.arthritisresearchuk.org/research/grants-you-can-apply-for/types-of-grant/fellowships/senior-research-fellowship.aspx

**BBSRC**

BBSRC/FSA Early-Career Fellowships

Biotechnology and Biological Sciences Research Council

Applications are accepted from early-career researchers in areas of science that are of strategic and scientific interest and importance to the funders. The budget is up to £2 million for two five-year fellowships.

http://bbsrc.ac.uk/funding/fellowships/early-career-research.aspx

BBSRC/RSE Enterprise Fellowships

These help increase exploitation of ideas with commercial potential from BBSRC-supported research, and enable individuals to advance the commercialisation of existing research results or technological developments. They provide a salary, currently in the range of £24,520 to £37,012, plus up to £10,000 in travel, consumables and equipment costs.

http://www.royalsoced.org.uk/638_BBSRCEnterpriseFellowships.html

**BBSRC**

David Phillips Fellowship

This supports scientists who have demonstrated high potential and who wish to establish themselves as independent researchers. Up to five fellowships are available. They provide a personal salary and a research support grant for five years.

http://www.bbsrc.ac.uk/funding/fellowships/david-phillips.aspx
British Academy

British Academy/Leverhulme Trust Senior Research Fellowships

These fellowships enable mid-career scholars to have one year’s research leave by providing funding to cover the costs of replacement teaching. Any field of study in the humanities and social sciences is suitable for support.

http://www.britac.ac.uk/readfell.cfm

British Academy

Mid-Career Fellowships

The aim of these fellowships is to allow successful applicants to obtain time freed from normal teaching and administrative commitments to devote to the completion of a major piece of research. The total value of a fellowship is not expected to exceed £160,000.

http://www.britac.ac.uk/funding/guide/midcareer.cfm

British Academy

Postdoctoral Fellowships

This scheme is designed to enable early-career researchers to strengthen their experience of research and teaching in a university environment, which will develop their curriculum vitae and improve their prospects of obtaining permanent lecturing posts by the end of the fellowship. Up to 45 fellowships are available.

http://www.britac.ac.uk/funding/guide/pdfells.cfm

British Association for Cancer Research

Mid-Career Fellowships

These fellowships support travel to a laboratory, enable the fellow to advance an ongoing programme or facilitate a collaboration which may lead to new programmes of work. Fellowships are worth up to £3,000.

http://www.bacr.org.uk/fellowships-and-bursaries/mid-career-fellowships/

British Council

Young Education Leaders Award

These awards recognise three young education leaders from around the world who have contributed significantly to the development of globally aware, globally competitive young people through the innovative use of technology.

http://www.pil-network.com/pd/youngeducators

Cancer Research UK

Clinician Scientist Fellowship

This is a postdoctoral fellowship available to clinicians whose research is relevant to the prevention, diagnosis or treatment of cancer and who wish to make the transition from doctoral research training to an independent clinical academic post. The fellowship provides up to four years’ support, salary for the fellow and a research assistant and consumables costs, and may be renewed for a further four years.

http://science.cancerresearchuk.org/funding/find-grant/all-funding-schemes/clinician-scientist-fellowship/?script=true

Cancer Research UK

Population Research Postdoctoral Fellowship

This provides support for postdoctoral researchers to carry out research in the following areas: clinical and public health epidemiology; educational and behavioural research in areas of prevention, screening and early diagnosis; clinical trials methodologies or statistics; secondary effects of treatment. The fellowship is awarded for three years and provides funding for the salary for the fellow, research expenses and equipment.

http://science.cancerresearchuk.org/funding/find-grant/all-funding-schemes/population-research-postdoctoral-fellowships/
Diabetes UK
RD Lawrence Research Fellowships
These are career development fellowships which support full-time research workers in the field of diabetes for up to five years. Awards provide the fellow's salary, as well as research expenses.
http://www.diabetes.org.uk/Research/For-researchers/Apply-for-a-grant/RD_Lawrence_Fellowship/

Fight for Sight
Early-Career Investigator Awards
These awards enable early-career investigators to undertake an independent project within the framework of the charity’s research priority areas. Awards are worth up to £200,000 over three years, beginning in October 2013.
http://www.fightforsight.org.uk/index.php/funding-types/articles/fight-for-sight-early-career-investigator-award

International Association for Dental Research
Award in Geriatric Oral Research
The purpose of this award is to stimulate, encourage, and recognize outstanding research accomplishments in the field of geriatric oral research. The award consists of a US$3,500 cash prize and a plaque.
http://www.iadr.com/i4a/pages/index.cfm?pageid=3424

International Association for Dental Research
Basic Research in Biological Mineralization Award
This award is designed to stimulate, encourage, and recognize basic research in the field of biological mineralization. Only IADR members may be nominated. The award consists of a US$3,500 cash prize and a plaque.
http://www.iadr.com/i4a/pages/index.cfm?pageid=3424

International Association for Dental Research
Basic Research in Periodontal Disease Award
The award was established to recognize, encourage, and stimulate outstanding research achievements in basic research in periodontal disease. The award consists of a US$3,500 cash prize and a plaque.
http://www.iadr.com/i4a/pages/index.cfm?pageid=3424

International Association for Dental Research
Behavioural, Epidemiologic and Health Services Research Award
This award is designed to stimulate and recognize outstanding achievements in the areas of behavioral science and health services research as they relate to dentistry. The award consists of a US$3,500 cash prize and a plaque.
http://www.iadr.com/i4a/pages/index.cfm?pageid=3424

International Association for Dental Research
Craniofacial Biology Research Award
The award recognizes persons who have contributed to the body of knowledge in craniofacial biology over a significant period of time. Only IADR members may be nominated. The award consists of a US$3,500 cash prize and a plaque.
http://www.iadr.com/i4a/pages/index.cfm?pageid=3424

International Association for Dental Research
Diagnostic Sciences Group Award
The award is given to the best student abstract presented at a diagnostic systems oral or poster session at the IADR general session. The award consists of a cash prize worth US$1,000.
http://www.iadr.org/i4a/pages/index.cfm?pageid=3440
**International Association for Dental Research**

**EW Borrow Memorial Award**

The award recognises and stimulates research in oral health promotion for children, with a priority for caries prevention where fluoride in different formats is utilised. The association will consider basic research, applied clinical research and clinical investigation.

http://www.iadr.com/i4a/pages/index.cfm?pageid=3425

**International Association for Dental Research**

**H Trendley Dean Memorial Award**

The award recognizes meritorious research in epidemiology and public health. The award consists of a US$3,500 cash prize and a plaque.

http://www.iadr.com/i4a/pages/index.cfm?pageid=3424

**International Association for Dental Research**

**IADR DAR Septodont Young Investigator Prize for Innovation**

The purpose of the prize is to promote innovation in dental anesthesia research and to recognize outstanding research contributions by promising young investigators. The prize comprises of a certificate of recognition and an award worth US$1,000.

http://www.iadr.org/i4a/pages/index.cfm?pageid=3931

**International Association for Dental Research**

**IADR David B Scott Fellowship**

The fellowship is intended to support a dental student, registered at an accredited or acceptable dental school, complete his or her research project. Eligible candidates may not have received their dental degree nor should they be due to receive their degree in the year of the award. Candidates may have a college or advanced degree in a discipline other than industry. The IADR expects to award $2,500 for a one year period.

http://www.iadr.org/i4a/pages/index.cfm?pageid=3413

**International Association for Dental Research**

**IADR Distinguished Service Award**

The award is presented to an individual member of the IADR for outstanding instances of service to the association or distinguished service over a period of time. It is intended to recognize members who have not served as officers of the IADR. The award consists of a plaque and expenses to travel to and attend the IADR general session in the year the award is presented.

http://www.iadr.org/i4a/pages/index.cfm?pageid=3423

**International Association for Dental Research**

**IADR/Heraeus Travel Award**

The purpose of this award programme is to encourage young investigators to undertake research in new and innovative testing methods of dental materials, and new ideas and approaches to improve and develop dental materials. The winner of each award will receive US$2,500 for expenses to attend the IADR General Session and Exhibition in 2013.

http://www.iadr.org/i4a/pages/index.cfm?pageid=3845

**International Association for Dental Research**

**IADR/Lion Dental Research Award**

This award is intended to support improvements in oral health sciences through the stimulation of junior researchers. Three awards of US$2,000 each are available.

http://www.dentalresearch.org/i4a/pages/index.cfm?pageid=3427

| **International Association for Dental Research**                        | 05 October 2012| The Unilever Hatton awards competition provides an opportunity for the best junior investigators from all IADR divisions to present their research at the annual general session. The first prize consists of US$1,600 and the second of US$800.  

http://www.iadr.org/i4a/pages/index.cfm?pageid=3420
| **International Association for Dental Research**                        | 05 October 2012| The purpose of the award is to encourage excellence in salivary related research among dental scientists, dental students and non-dental students and allow them to attend and participate in a major international dental research meeting, by assisting them financially. Up to three awards will be awarded worth US$1,500 to US$2,000.  

http://www.iadr.com/i4a/pages/index.cfm?pageid=3855
| **International Association for Dental Research**                        | 04 September 2012| This award is intended to confer the highest honor in the field of dental and craniofacial research. The award consists of a US$3,500 cash prize and a plaque.  

http://www.iadr.com/i4a/pages/index.cfm?pageid=3424
| **International Association for Dental Research**                        | 05 October 2012| The purpose of this fellowship is to allow a dental or postgraduate student member to obtain training and experience in dental or related research. The fellowship offers funds of US$10,000.  

| **International Association for Dental Research**                        | 05 October 2012| The award will be given to a young investigator who submits an outstanding clinical or basic research paper related to orofacial neuroscience at the general session and exhibition of the IADR.  

http://www.iadr.org/i4a/pages/index.cfm?pageid=3765#.UD4wEJ-e7Cp
| **International Association for Dental Research**                        | 04 September 2012| The purpose of this award is to recognize outstanding and sustained peer-reviewed research that has contributed to the understanding of the mechanisms governing the health and disease of the oral cavity and associated structures, principally encompassing skin, bone, and the oral soft tissue. The award consists of a US$3,500 cash prize and a plaque.  

http://www.iadr.com/i4a/pages/index.cfm?pageid=3424
| **International Association for Dental Research**                        | 04 September 2012| The award is made for outstanding research that has contributed to our knowledge of the mechanisms, efficacy, or safety of drugs used in dentistry. The award consists of a US$3,500 cash prize and a plaque.  

http://www.iadr.com/i4a/pages/index.cfm?pageid=3424
| **International Association for Dental Research**                        | 04 September 2012| The award was established to recognize, encourage, and stimulate outstanding research contributions in the field of pulp biology. The award consists of a US$3,500 cash prize and a plaque.  

http://www.iadr.com/i4a/pages/index.cfm?pageid=3424
International Association for Dental Research
Research in Dental Caries Award
The award is designed to stimulate and recognize outstanding and innovative achievements that have contributed to the basic understanding of caries etiology or to the prevention of dental caries. The award consists of a US$3,500 cash prize and a plaque.

http://www.iadr.com/i4a/pages/index.cfm?pageid=3424

International Association for Dental Research
Research in Oral Biology Award
The award is for outstanding research in any field of oral biology, and is intended to cover those fields not included in other IADR science awards. The award consists of a US$3,500 cash prize and a plaque.

http://www.iadr.com/i4a/pages/index.cfm?pageid=3424

International Association for Dental Research
Research in Prosthodontics and Implants Award
The award’s aim is to encourage and give recognition to outstanding research accomplishments in the field of prosthodontics and implantology. The award consists of a US$3,500 cash prize and a plaque.

http://www.iadr.com/i4a/pages/index.cfm?pageid=3424

International Association for Dental Research
Salivary Research Award
The award is designed to stimulate and recognize outstanding and innovative achievements that have contributed to the basic understanding of salivary gland structure, secretion and function, or salivary composition and function. The award consists of a US$3,500 cash prize and a plaque.

http://www.iadr.com/i4a/pages/index.cfm?pageid=3424

International Association for Dental Research
William J Gies Award
This award is presented for the best paper published in the Journal of Dental Research during the preceding year. The award consists of a US$1,000 prize and a plaque.

http://www.dentalresearch.org/i4a/pages/index.cfm?pageid=3429

International Association for Dental Research
Wilmer Souder Award
The award is designed to encourage interest in dental materials research. The award consists of a US$3,500 cash prize and a plaque.

http://www.iadr.com/i4a/pages/index.cfm?pageid=3424

International Association for Dental Research
Young Investigator Award
The award is designed to stimulate basic research in all dental research disciplines. The nominee must be within 10 years of completing his or her last terminal degree. The award consists of a US$3,500 cash prize and a plaque.

http://www.iadr.com/i4a/pages/index.cfm?pageid=3424

Kay Kendall Leukaemia Fund
Junior Research Fellowships
The objective of this programme is to support outstanding individuals wanting to pursue research into haematological malignancies. Fellows will be remunerated at a level determined by the host institution. The fund will allocate up to £17,000 to contribute to the cost of laboratory consumables and a further £1,000 to cover the costs of travel to meetings.

http://www.kklf.org.uk/junior.html
Leukaemia and Lymphoma Research

Visiting Fellowships

These enable outstanding clinical and non-clinical qualified postdoctoral researchers to spend two years in a European or international centre of excellence in order to gain new skills and experience relevant to career ambitions. Fellowships may be extended for a third year, subject to peer review.

http://leukaemialymphomaresearch.org.uk/research/researchers/funding-opportunities

Leverhulme Trust

International Academic Fellowships

These support a period overseas in a stimulating academic environment, and may be used for a range of activities including exchange of ideas, development of new lines of research and collaborative ventures. Fellowships are worth up to £22,000 for a period of three to 12 months. Eligible costs include replacement cover, travel, maintenance and research expenses.

http://www.leverhulme.ac.uk/funding/IAF/IAF.cfm

Leverhulme Trust

Research Fellowships

These support experienced researchers, particularly those who are or have been prevented by routine duties from completing a programme of original research. Fellowships are worth up to £45,000 for a period of three to 24 months. Awards may cover research expenses and a contribution towards replacement costs or loss of earnings.

http://www.leverhulme.ac.uk/funding/RF/RF.cfm

Leverhulme Trust

Visiting Professorships

These enable distinguished academics based overseas to spend between three and 10 months at a UK university, primarily to enhance the skills of academic staff or students at the host institution. Visiting professors may also wish to use the opportunity to further their own academic interests.

http://www.leverhulme.ac.uk/funding/VP/VP.cfm

MRC

Career Development Award

This provides up to five years' support for postdoctoral researchers who wish to consolidate their research skills and make the transition to independent investigator. The award, which must be held in the UK, provides salary, support staff, consumables, travel costs and capital equipment under full economic costs.

http://www.mrc.ac.uk/Fundingopportunities/Fellowships/Careerdevelopmentaward/index.htm

MRC

Career Development Award in Biostatistics

This aims to support outstanding individuals who have recently completed their PhDs and who are working in - or seeking to move into – statistically based, health-related research. The fellowship covers salary, research training support costs, annual travel/overseas costs, and all other relevant costs under full economic costs.

http://www.mrc.ac.uk/Fundingopportunities/Fellowships/Careerdevelopmentawardbiostatistics/index.htm

MRC

Early Career Fellowship in Economics of Health

The scheme enables individuals to undertake challenging projects in excellent research and training environments. The fellowship is for a period of up to three years.

http://www.mrc.ac.uk/Fundingopportunities/Fellowships/Earlycareerpostdoctoral/index.htm
MRC Methodology Research Fellowship

The scheme is aimed at researchers with a grounding in health research who wish to undertake a period of specialist training in the development and investigation of innovative research methods. The fellowship lasts up to four years and covers salary, training, consumables, and travel costs, capital equipment, and all other relevant costs under FEC.

http://www.mrc.ac.uk/Fundingopportunities/Fellowships/Methodologyresearch/index.htm

MRC Opportunities to Work in the New Research Complex at Harwell - Career Development Awards

Applications are sought from researchers wishing to occupy laboratory space in RCaH and utilise its facilities. Career development awards are suitable for those wishing to establish their independent research career at the complex. MRC will provide 80 per cent of FEC to the applicant's institution.

http://www.mrc.ac.uk/Fundingopportunities/Calls/RCaH/index.htm

MRC PET Neuroscience Specialist Postdoctoral Training Programme

This supports neuroscience research that depends on the use of PET imaging. Each award will be made for up to four years, with at least two years designated for PET training. A total of £2 million is available to fund at least four awards.

http://www.mrc.ac.uk/Fundingopportunities/Calls/MRCPET/MRC008777

MRC Population Health Scientist Fellowship

Population health sciences are concerned with the study of social and environmental influences on physical and mental health and wellbeing, with reference to a range of up-stream influences such as early life experiences, the social and economic conditions in which people live and environmental exposures that can affect wellbeing. The fellowship lasts for up to four years.

http://www.mrc.ac.uk/Fundingopportunities/Fellowships/Populationhealthscientist/index.htm

MRC Senior Non-Clinical Fellowship

This is an award for non-clinical researchers of exceptional ability. The award covers salary, research support staff, research consumables expenses and capital equipment, travel costs, and other appropriate items under full economic costs for up to seven years at a UK research organisation.

http://www.mrc.ac.uk/Fundingopportunities/Fellowships/Seniornonclinical/index.htm

MRC Special Training Fellowship in Biomedical Informatics

This supports specialist multidisciplinary training aimed at supporting new developments in the fields of bioinformatics, neuroinformatics, health informatics and computational biology. The fellowship lasts for a period of three years and covers salary, research training support costs, travel costs, and all other relevant costs under full economic costs.

http://www.mrc.ac.uk/Fundingopportunities/Fellowships/Specialtraining/index.htm

Royal Society Industry Fellowships

The scheme aims to enhance knowledge transfer in science and technology between those in industry and those in academia in the UK. Awards can be for any period up to two years full time or four years pro rata.

http://royalsociety.org/grants/schemes/industry-fellowship/

Royal Society Industry Fellowships

The scheme aims to enhance knowledge transfer in science and technology between those in industry and those in academia in the UK. Awards can be for any period up to two years full time or four years pro rata.

http://royalsociety.org/grants/schemes/industry-fellowship/
Royal Society
University Research Fellowships

These enable outstanding scientists to build an independent research career. Awards are tenable for five years in the first instance and cover the fellow's salary, estates and indirect costs at a rate of 80 per cent of full economic costs. Research expenses will also be provided. Up to 40 fellowships are available.

http://royalsociety.org/grants/schemes/university-research/

Society for Endocrinology
Early Career Grants

These may be awarded to young members of the society within no more than ten years of receiving their postgraduate degree. The maximum value of this grant is £10,000.

http://www.endocrinology.org/grants/grant_earlycareer.html

Wellcome Trust
Career Re-entry Fellowships in Biomedical Science

These support postdoctoral scientists who have recently decided to recommence a scientific research career after a break of at least two years. Fellowships are tenable for two to four years and include a salary and research expenses.

http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Basic-biomedical-fellowships/WTD004380.htm

Wellcome Trust
Early Postdoctoral Training Fellowships for Clinician Scientists

This scheme supports talented clinicians who have recently obtained a higher degree and wish to undertake a period of postdoctoral research training in the best laboratories in the UK and overseas. Awards last for up to three years with a maximum funding amount of £350,000 to cover a full clinical salary and research expenses.

http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Clinical-fellowships/WTVM053000.htm

Wellcome Trust
Intermediate Clinical Fellowships in Biomedical Science

These enable candidates to continue their research interests at a postdoctoral level in an appropriate unit or clinical research facility. This scheme is for medical, dental, veterinary or clinical psychology graduates who have had an outstanding start to their research career, and who have a relevant connection to the EEA. Applicants should have previously undergone a period of research training and will have completed, or be about to complete, a higher degree. Sponsoring institutions must be based in the UK or Republic of Ireland. For research to be carried out primarily in a low or middle-income country, an appropriate training institute must be identified. The sponsor must have tenure beyond the duration of the proposed fellowship, as well as a contract of employment with the academic institution or, in the case of a NHS employee, an honorary academic appointment. Fellowships last for up to five years and provide research expenses and salary. Specific items of equipment, research or technical assistance, and funding for a period of research abroad may also be considered.

http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Clinical-fellowships/WTD004402.htm

Wellcome Trust
International Senior Research Fellowship

This scheme supports outstanding researchers, either medically qualified or science graduates, who wish to establish a research career in an academic institution in either Croatia, the Czech Republic, Estonia, Hungary, Poland, Slovakian Republic or Slovenia. The fellowship is for five years.

http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/International-fellowships/WTX024868.htm
Wellcome Trust
New Investigator Awards in Biomedical Science
26 November 2012
These will provide support that is flexible and at a level and length sufficient to enable exceptional researchers to address the most important questions about health and disease. Awards are worth between £100,000 and £425,000 per year for a period of up to seven years.

http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/investigator-awards/wtx059284.htm

Wellcome Trust
New Investigator Awards in Ethics and Society
07 September 2012
These support research that explores the ethical and social aspects of biomedical research and health interventions, with the ultimate aim of achieving extraordinary improvements in human and animal health. Funding is worth up to £200,000 over a maximum of five years.

http://www.wellcome.ac.uk/Funding/Ethics-and-society/funding-schemes/Investigator-awards/WTDV031466.htm

Wellcome Trust
New Investigator Awards in Medical History and Humanities
07 September 2012
These support world-class researchers who are no more than five years from appointment to their first academic position but can already show that they have the ability to innovate and drive advances in their field of study. Funding is worth up to £200,000 over a maximum of five years.

http://www.wellcome.ac.uk/Funding/Medical-history-and-humanities/Funding-schemes/Investigator-Awards/WTDV031437.htm

Wellcome Trust
Postdoctoral Training Fellowships for MB or PhD Graduates in Biomedical Science
09 November 2012
This scheme provides an opportunity for the most promising newly qualified MB or PhD graduates in biomedical sciences, or those who have achieved a high-quality PhD during or before starting their medical degree, to make an early start in developing their independent research careers. Fellowships are worth a maximum of £350,000 for a period of up to four years.

http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Clinical-fellowships/WTX050468.htm

Wellcome Trust
Research Career Development Fellowships in Basic Biomedical Science
01 November 2012
These enable postdoctoral scientists from across the remits of the trust's funding streams to become independent research scientists and undertake high-quality research in an eligible Republic of Ireland institution. Fellowships are tenable for five years and provide a basic salary, as determined by the host institution with an enhancement from the Wellcome Trust, as well as research expenses, overseas allowances, and travel and subsistence costs.

http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Basic-biomedical-fellowships/WTD004431.htm

Wellcome Trust
Senior Investigator Awards in Biomedical Science
26 November 2012
These will provide support that is flexible and at a level and length sufficient to enable exceptional researchers to address the most important questions about health and disease. Awards are worth between £100,000 and £425,000 per year for a period of up to seven years.

http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/investigator-awards/wtx059285.htm

Wellcome Trust
Senior Investigator Awards in Ethics and Society
07 September 2012
These support researchers who have an international track record of significant achievement, who have demonstrated the originality and impact of their research, and who are leading their field. Funding is worth up to £200,000 over a maximum of five years.

http://www.wellcome.ac.uk/Funding/Ethics-and-society/funding-schemes/Investigator-awards/WTDV031467.htm
Wellcome Trust

Senior Investigator Awards in Medical History and Humanities

These support exceptional, world-class researchers who hold an established academic position and have a compelling long-term vision for their research. Funding is worth up to £200,000 over a maximum of five years.

http://www.wellcome.ac.uk/Funding/Medical-history-and-humanities/Funding-schemes/Investigator-Awards/WTDV031465.htm

Wellcome Trust

Senior Research Fellowships in Basic Biomedical Science

This scheme provides support for outstanding postdoctoral scientists based in academic institutions in the UK and Republic of Ireland. The fellowship is for five years and provides a basic salary, normally of up to £55,000, with an additional trust supplement of £12,500 per year, research programme costs, inflation allowance and support to attend scientific meetings.

http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Basic-biomedical-fellowships/WTD004442.htm

Wellcome Trust

Senior Research Fellowships in Clinical Science

This scheme provides support for clinical investigators to further develop their research potential and to establish themselves as leading investigators in clinical academic medicine. The fellowship is for five years and covers basic salary; research expenses essential to the project; inflation allowance and support to attend scientific meetings.

http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Clinical-fellowships/WTD004445.htm

Wellcome Trust

Sir Henry Dale Fellowships

These enable outstanding postdoctoral scientists who wish to build their own UK-based independent research career to address an important biomedical question. Funding covers a basic salary plus an enhancement of £7,500 per annum; research expenses, including research assistance if required; travel and subsistence for collaborative travel or scientifically justified overseas visits; and overseas allowances where appropriate.

http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Basic-biomedical-fellowships/WTDV031823.htm

Wellcome Trust

Sir Henry Wellcome Postdoctoral Fellowships

These enable the most promising newly qualified postdoctoral researchers to make an early start in developing their independent research careers, working in the best laboratories in the UK and overseas. Fellowships provide £250,000 over four years, to cover salary and research expenses.

http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Basic-biomedical-fellowships/WTX033549.htm
