MifeMiso Trial

ISSUE 1

OCTOBER 2017

MifeMiso recruitment is go, go, go!

Hello and welcome to the first edition of the MifeMiso newsletter! Firstly we would like to say a very warm welcome to all our MifeMiso sites who are now open and those in set up!

We're very pleased to say that MifeMiso recruitment is off to a flying start—very well done to teams at all our sites who have recruited their first ladies and best of luck to those who are yet to recruit!

We now have a total of 13 hospitals which are open to recruitment with several more sites to open shortly!

A special congratulations is due to the team at Sunderland who recruited 3 ladies in just 9 days! MifeMiso officially opened to recruitment on 20th September 2017 and so far 14 ladies have been recruited to date.

The stats so far...

Total recruited up to 24th October 2017

Total Recruited			
Position	Centre	Date activated	Total recruited
1	Sunderland Royal Hospital	25 September 2017	4
2	University College London Hospital	27 September 2017	3
3	St Thomas' Hospital	02 October 2017	2
3	Whipps Cross University Hospital	02 October 2017	2
4	University Hospital Coventry	25 September 2017	1
4	Liverpool Women's Hospital	09 October 2017	1
7	Queen's Medical Centre, Nottingham	20 September 2017	0
7	Queen Alexandra Hospital	20 September 2017	0
7	St Michael's Hospital, Bristol	25 September 2017	0
7	Royal Victoria Infirmary, Newcastle	29 September 2017	0
7	Royal Infirmary of Edinburgh	03 October 2017	0
7	Princess Anne Hospital, Southampton	09 October 2017	0
7	Royal London Hospital	11 October 2017	0

MifeMiso forum meeting - AEPU 2017

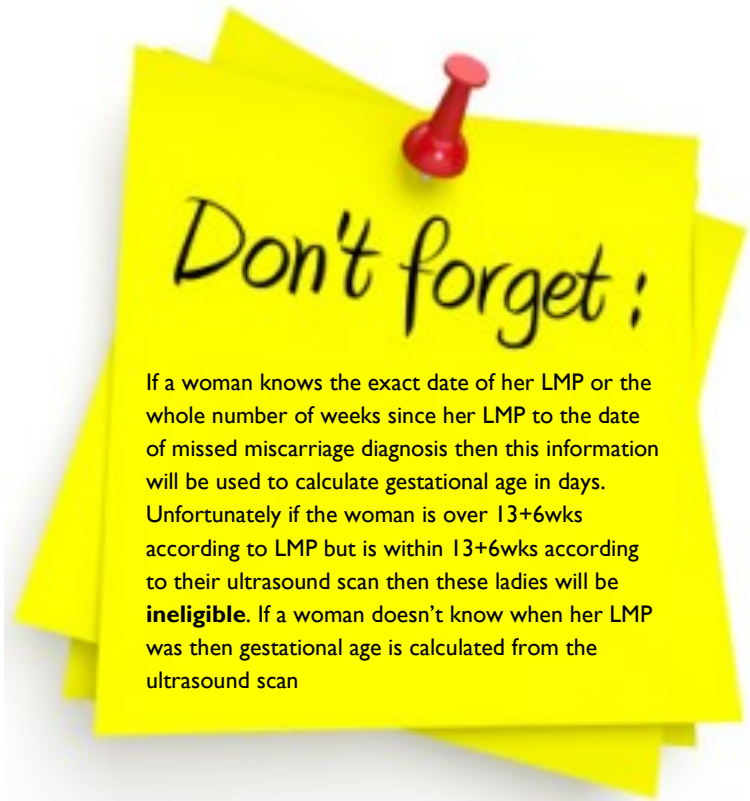

The MifeMiso trial team will be at the AEPU annual scientific meeting 2017. The meeting is being held at the University of Warwick, 9-10th November.

The trial team will be hosting a MifeMiso forum meeting—this will be a useful opportunity to meet your EPU colleagues from other sites involved with MifeMiso, discuss any recruitment issues and share recruitment tips so please do come along!

The meeting will be held on **Thursday 9th November, 4-5pm** and will be located in the **Scarman** area. The room number will be displayed on arrival at Scarman reception.

Please respond to let us know if you will be going to AEPU and if so, if you're able to join the forum meeting.

We look forward to seeing you there!

If a woman knows the exact date of her LMP or the whole number of weeks since her LMP to the date of missed miscarriage diagnosis then this information will be used to calculate gestational age in days. Unfortunately if the woman is over 13+6wks according to LMP but is within 13+6wks according to their ultrasound scan then these ladies will be **ineligible**. If a woman doesn't know when her LMP was then gestational age is calculated from the ultrasound scan

*“You
have to
be in it
to win
it!”*

Patients mean prizes!

From October 2017 we will be starting recruitment competitions—to be in with a chance to win at your site you just need to recruit one lady to MifeMiso for a particular month. All sites that have recruited will be entered in to a draw to win some MifeMiso merchandise including pull reels and lip balms! The more ladies you recruit the greater the chance you have of winning!

Who will be the winner for October?!

Satisfaction surveys

The patient satisfaction surveys (CSQ-8 questionnaire) have to be purchased from a company called Tamalpais Matrix Systems, LLC according to the number required rather than paying a set fee. Therefore please take care of these questionnaires as unfortunately we don't have a bottomless budget and cannot simply print endless copies of these! Thanks for your cooperation!

Important Notice

Reminders

Queries—Check your list of queries to action in the database on a **regular** basis (using the **monitoring** tab)—we will send monthly reminders to the main research nurses and midwives at each site

Screening logs—Enter screening log data in to the database on **at least** a monthly basis (or enter as you go along)—we will send monthly reminders to the main research nurses and midwives at each site

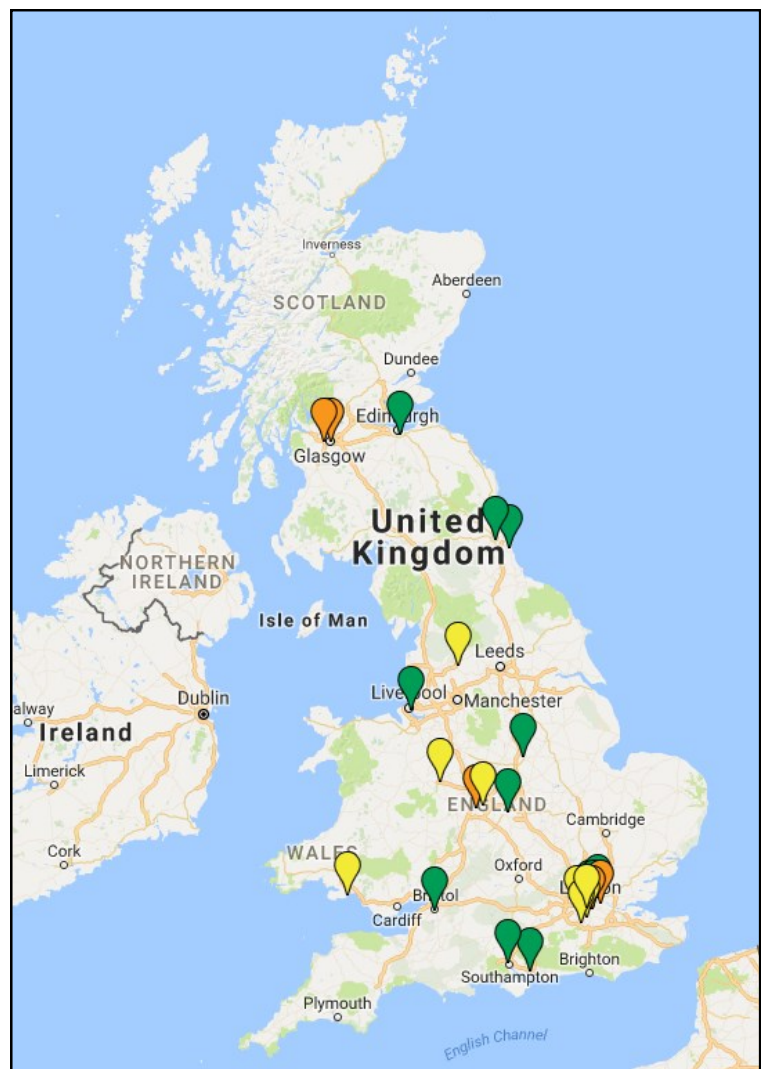

Day 21—Call ladies at day 21 to obtain their pregnancy test result and remind them to complete the satisfaction survey and EQ-5D-5L questionnaire and post back to the trial office if their result is negative. **Remember to highlight the opportunity of participating in a follow up interview to women**

Data entry—Check data entry completeness regularly using the **alerts** tab. Ensure data entry is done promptly—in particular please ensure the Outcomes form is fully completed once a lady obtains a negative pregnancy test result and is discharged from EPU care—it is **very important** for the trial office to be aware once a lady has been discharged so we know to expect their questionnaires

MifeMiso sites

-  First wave sites open
-  First wave sites in set up
-  Second wave sites in set up

Fundraising for Tommy's

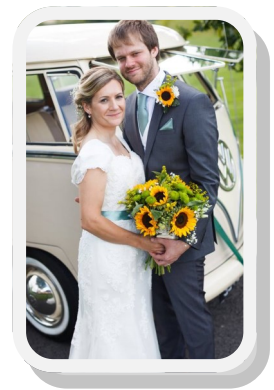

Not only have the team been busy setting up MifeMiso sites but in their spare time they've been grabbing their running shoes and doing lots of training! Dr Justin Chu and Leanne Beeson have both successfully completed runs in aid of Tommy's. Justin ran the Royal Parks Half Marathon on 8th October 2017 and Leanne completed the Birmingham International Marathon on 15th October 2017. Between them they have raised over £1,000! There's still time to sponsor so if you'd to do so you can sponsor Justin [here](#) and Leanne [here](#)

We're on Twitter!

Don't forget to follow us on Twitter [@mifemiso_trial](#) for trial updates!

Leanne Homer Beeson - change of name

Leanne got married on 31st July 2017 and has taken the surname 'Beeson' so just in case you're wondering this is the same person!
