Dear Alumni,

And so another year rolls by. Except of course this wasn’t just another year. This was a year when we all had to teach on line, recording lectures and running examples classes through Zoom. A year when we all got used to Zoom tutorials and important meetings being interrupted by dogs or kids – mostly mine, it has to be said. But above all this was a year when we had to be even more mindful than usual of our colleagues and our students. We didn’t get everything right; changing complex systems that have been in place for years over night was not always going to go smoothly. But overall, I am staggeringly proud of what we have achieved.

First students graduate from Birmingham-Guangzhou education partnership

'Universal law of touch' will enable new advances in Virtual Reality
The first 87 students have graduated from a partnership between the University of Birmingham and Jinan University that saw them receiving degrees from both institutions. Congratulations to them all!

A team of researchers led by Birmingham Mathematicians have used seismic waves, commonly associated with earthquakes, to create the first scaling law for touch sensitivity.

Funding boost for AI-based epilepsy monitoring

University spinout Neuronostics has received funding to develop an AI-based system for faster, more accurate diagnosis of epilepsy and to monitor response to treatment with anti-epileptic drugs.

Professor John Terry awarded prestigious Fellowship

The award will enable Professor Terry’s research, which focuses on the accurate diagnosis, prognosis and management of epilepsy, to advance understanding and treatment of the serious brain condition.

Success for our students at the annual Societies’ Awards

For the second year running we took the EPS Societies’ Awards online to celebrate our remarkable student groups. The celebrations were not halted and watch parties were held across our societies and Schools! Our very own Sam Davies was names Sports Personality of the Year! Congratulations also to the Women in Science and Engineering Society who were named Society of the Year, and well done to all the nominees, shortlisted students and worthy winners!

Watch the 2021 Virtual Societies’ Awards
Not even a pandemic will stop MathSoc
All year, MathSoc have worked closely with the School of Maths to help welcome new students into the University, maintain their strong and supportive community, and provide more virtual socials, charity and careers events than ever before.

Could you mentor a student?
We’re looking for enthusiastic alumni and professionals to offer expertise and advice to help our students start their careers. Mentoring makes a real difference; we all know the value of having someone to bounce ideas off, especially when it comes to our careers. Your advice is invaluable. If you’d like to be that person, we’d love to hear from you.

Email Grace to become a mentor
