Ice Age Investigation!

Incredible Ice Sheets

What is the biggest ice sheet on Earth today?

____________________________________________________________________________________

How do ice sheets form?

____________________________________________________________________________________

What was the land like?

What was the name of the piece of land which joined the UK and Europe together? (It is now underneath the North Sea)

____________________________________________________________________________________

How much of Earth's surface was covered by ice sheets during the Ice Age?

____________________________________________________________________________________

Sabre-toothed Colouring

Sabre-toothed cats were large predators, with long, sharp teeth which were perfect for piercing into animals. They could also open their mouths 120 degrees!
The Caves of Creswell Crags

Ice Age people had to shelter in caves or build their own campsites using natural materials. How do you think it would have felt to sleep in a cave?

Ice Age vs Modern Age

People living in the last Ice Age had their own versions of many objects we still use today! Some are quite similar but others are very different. Can you match the pairs?

Red Ochre and Shell

Meat Cleaver

Flint Handaxe

Harpoon Gun

Bone Needle and Sinew

Paint and Palette

Flint Burin

Needle and Thread

Antler Barbed Point

Chisel

Palaeo Portrait

Have a go at drawing the face of an Ice Age person.
