

# Make a Fossil Ichthyosaur

## Materials :

**Cardboard, Masking Tape, Scissors, Paper Straws, PVA Glue.**

**1 - Cut straws to make a spine.**

**2 - Cut out two card shapes to make the skull.**

**3 - Cut notches in a small card circle for the eye socket.**

**4 - Cut small triangles for the teeth.**

**6 - Cut out four flippers. Score and cut the card to make them more flexible.**

**5 - Use thin strips of card for ribs.**
