

Would you like to take part in a trial designed to test whether kidney function can be improved or stabilised by stopping certain drugs in advanced kidney disease?

If you are aged 18 or over, have chronic kidney disease (CKD stage 4 or 5) and have been taking Angiotensin Converting Enzyme inhibitors (ACEi) or Angiotensin Receptor Blockers (ARB) or a combination of both for more than 6 months, please ask your doctor or clinic nurse about:

The STOP-ACEi Trial

The STOP-ACEi trial is recruiting 410 participants from centres across the UK.
Could you be one of them?

If you are interested in this trial please contact:

<Enter names, job title and contact details for local contacts>

Or for more details please visit: www.birmingham.ac.uk/stopacei

Or email: stopacei@trials.bham.ac.uk

Multi-centre Randomised Controlled Trial of Angiotensin Converting Enzyme inhibitor (ACEi) / Angiotensin Receptor Blocker (ARB) withdrawal in advanced renal disease;
The STOP-ACEi Trial.
