FEBRUARY 22 NEWSLET-

Pregnancy ANtihypertensive Drugs: which Agent is best?

giant-panda@trials.bham.ac.uk

#GiantPandaStar

Spread the word!

The prize draw was a popular one so we're doing it again!

£50 COOK

Entered into the prize draw

Any healthcare professional who *refers* an eligible woman to your research team in January and February (so you can then offer her the trial) … the referrer will be entered into a prize draw with two opportunities to win a **£50 Cook voucher**

What you need to know…. before prescribing antihypertensives in pregnancy

We have found that the more comfortable doctors and midwives are with the uncertainty around these medications, then the more they are likely to signpost women to the giant PANDA study and the more women feel reassured and are comfortable to commence in the trial. Attached is a *memo for all obstetric consultants* and trainees and a recent BMJ Uncertainties publication which we would like to share with you. We would be grateful if you could circulate and promote to your consultant and trainee colleagues.

Study update – February 2022

- 21 Trusts (22 sites) now open
- 37 participants randomised in January

	Date opened	Screened (Total)	Randomised (Total)	Randomised (Jan 2022)	Latest randomisation
Birmingham Women's and Children's NHS Foundation Trust	26.05.21	83	4	0	30.09.21

West Middlesex Hospital	17.12.21	16	11	0	20.01.22
Grand Total		**426**	**187**	**37**	

Tips to find eligible women:

- Screen booking – ask your clerks/ community midwives to call / email you when they have someone with hypertension
- Screen clinic lists (e.g. maternal medicine, diabetes, renal, hypertension, etc.)
- Check in daily with antenatal clinic, MAU/DAU, antenatal ward and labour ward. Keep reminding them to email/ call you.
- Present at your clinical governance / MDT meetings to raise awareness of the trial
- Email the criteria for the trial to your doctors and midwives (https://www.youtube.com/watch?v=LLTQmHKXJ8
- Keep reminding doctor and midwives to call when they are writing an antihypertensive prescription – key cards, quick reference leaflets on antenatal clinic desks
- Posters in staff and patient areas
- Stickers on outpatient prescription drawer
- Patient information leaflets in home blood pressure service package
- Get an Associate PI? https://www.nihr.ac.uk/health-and-care-professionals/career-development/associate-principal-investigator-scheme.htm

Have you responded to your data queries on REDCap?

1. Login to REDCap
2. Click on 'Resolve Issues' (bottom left-hand side) which will list all queries
3. You can see the query and any updated response according to participant id
4. Please update eCRF (if applicable) and respond to the query to say what you have done (for audit trail)
5. Set aside a time to check back regularly (monthly) for new queries
