

June 2023 NEWSLETTER

Pregnancy ANtihypertensive Drugs:
Which Agent is best?

63 women were randomised in May - thank you for your continued hard work to the trial!

The top recruiting sites were: *Manchester, Guys & St Thomas', Mid Yorkshire NHS Trust, University Hospital Dorset, South Tyneside & Sunderland NHS Trust and Western Sussex.*

Lets keep the momentum going—can you recruit to target in June?

*A huge WELCOME to 4 new sites this month!
Sherwood Forest , George Elliot, Walsall & West Herts.*

We look forward to working with you!

Thank you to those who were able to join and contributed to this month's virtual meeting !

Last month we noticed more participants were recruited to the observational arm than to the randomised trial. There was a useful discussion with lots of sites participating, around overcoming the barriers to recruitment and how to re-approach women to offer randomisation.

Key points when offering randomisation:

- ◆ 50% chance that they stay on the current medication
- ◆ 50% chance they change
- ◆ If they do change, they may prefer the new medication
- ◆ If they do not like the new medication they can switch back to the current medication (just like clinical care) and their experience still counts, helping us to improve care

Next virtual meeting

Wed 5th July 2023

@1pm

You might want to re-watch the video resources to support framing conversations (attached).

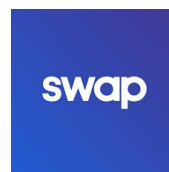

Jenie, Dani & Hilary are planning site visits to come and say "hello" in person. We will be contacting you to see what days and dates work. Look out for the emails.

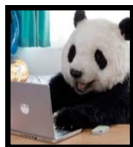

Baby PANDA - Can you help?

If any sites are looking to join Baby PANDA please contact Nat Barry on: Natalie.barry@mft.nhs.uk for further information. We only ask that you are recruiting well to Giant PANDA to be able to support this study. The feedback we have had from sites and participants is incredibly positive.

One women said "she really enjoyed the blood pressure monitoring because it made her more compliant with the medication as it reminded her to take it".

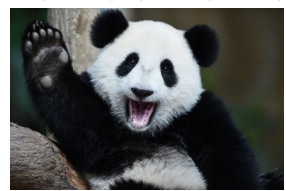

A quick reminder about the Giant PANDA Study Within A Project (SWAP) very short (5 minute) audit survey. <https://forms.office.com/e/m4gA7Ln5jP> The SWAP is looking at maximising inclusivity and participation of pregnant women and birthing people with multiple long-term health conditions .

- 1. Offer the trial to every woman with hypertension**
- 2. Plan regular visits to the clinical areas ANW/MAU/DAU/Triage—visibility with clinical staff is key!**
- 3. Screen antenatal clinic lists for women with hypertension**
- 4. Provide ongoing education with clinical staff including doctors— please contact us if you would like refresher training**
- 5. Use the study resources**
- 6. Attend the virtual meetings and learn from other sites!**

Photo Shout Out

Thank you to the team at South Warwickshire for sending us a picture of them

We will be sending out more certificates at the beginning of July.

Please do send us photos of your team to be featured in the next newsletter!
