

Pregnancy ANtiHypertensive Drugs: which Agent is best?

giant-panda@trials.bham.ac.uk

@GiantPANDATrial

May update

The giant PANDA study has been open 11 months. 29 Trusts are now open and 325 participants have been randomised. This has been good progress in the challenging circumstances of the last two years, but we are keen to do everything we can to stay on track. We are asking every site to work on meeting its monthly target. If you are facing any particular challenges at your site, please get in touch. We may be able to help!

For each eligible woman referred to your research team, the healthcare professional will gain one entry into the prize draw (even if the woman does not consent to the trial) to win **£30 of John Lewis vouchers**. Email the giant PANDA team with the referrer's name.

'Discontinuation or withdrawal... probably discontinuation'

If you know or suspect that something has changed with a participant since the date of consent which means a full dataset may not be possible, always open the 'change in study status' form on REDCap and record what you know. This form will give you clear guidance as to whether it is a loss to follow-up, discontinuation or withdrawal, and what, if any further data should be collected. This form can be updated as many times as required.

Please note: If a participant DOESN'T START, SWITCHES, ADDS to or STOPS their medication, this is not a discontinuation or a withdrawal. The participant should continue in the trial and complete the follow-up unless *explicitly* stated otherwise by the participant.

Please contact the giant PANDA study team if you are unsure. We are always happy to help.

All the sites who met (or exceeded!) their monthly target in April... & sites who randomised their 1st EVER participant... Well done!

Tip of the month

Initiate a 'find the giant PANDA competition' in your unit. Hide pictures of pandas around the maternity unit to raise awareness about the trial amongst all teams. If someone finds a panda, they receive a chocolate bar & a pen!'. Please come and speak to the giant PANDA team about resources for this

The PC Team

St Thomas' Hospital

"A huge shout-out to the team for randomising three women in the space of 13 minutes, all in the witching hour that leads up to 5pm. Fantastic teamwork, wonderful dedication and as ever strong advocacy for the women.

Special mention to Julie who took a recently arrived refugee through the research offer (and trial enrolment) via an interpreter."
