

# Clinical Trial in Recruitment

## ARE YOU HAVING A HYSTERECTOMY? YOU MAY BE ELIGIBLE TO JOIN THE LAVA STUDY

- There are two common types of hysterectomy: Open or Key-hole
- It is not known which procedure is better for the woman and the NHS
- This study will compare safety and recovery of Open and Key-hole hysterectomy and quality of life afterwards
- We require 3250 women from hospitals across the UK

If you are interested in joining the study, please contact the local research team:
