WILL Trial

ISSUE 7

OCTOBER 2019

Recruitment update for September!

We are very excited to report that as of 30th September 2019, we had **17** WILL participants from 8 sites! **Seven of these participants were in September.**

It is fantastic that St Thomas' Hospital and Birmingham Women's Hospital had their first participants in WILL this month.

Overall, it would be fair to say that recruitment has been a little slower than anticipated. Please remember to call if you need to check eligibility or to discuss any issues that you are experiencing. It would be great to have all open sites recruiting to WILL.

Remember Think **WILL!**

W: **Where** to target women and **When** to approach

I: **Involve** clinical areas and provide **Information** leaflets

L: **Link** with hypertensive leads and **Leave** your contact details

L: **Lead** Research Midwives and **Laura** are happy to help!

Pilot phase - open sites

We now have 18 sites open to recruitment and 2 more opening soon. These 20 will be all of the sites in the pilot phase.

We want to ensure a good geographical spread of hospitals across the UK. You can see from the map (right), that this has worked well for the pilot phase of the trial, and we hope to continue this for the main phase.

We are hoping to take on some Scottish sites soon too, so watch this space! Would WILL look good in tartan?!

Main phase

Please keep providing feedback about what is going well and any comments that you have

Please don't hesitate to contact us if you need anything.

Visit to Croydon

We were recently invited to the Clinical Governance day at Croydon University Hospital and it was a great opportunity to talk to the clinicians there about the WILL trial. Sue and Peter ('Mr Magee') went along to discuss WILL and answer questions about the study.

Thank you for making us very welcome. Hopefully, this visit will help to increase awareness of WILL and address any uncertainties.

If you would like us to come along to present or talk about WILL to any of your clinical staff, please let us know and we would be very happy to visit.

WILL teleconference

Thank you to everyone who tried to join us for the WILL teleconference on the 30th September. BCTU had technical issues and unfortunately, the meeting could not go ahead as planned. We hope that you accept our apologies and that you are able to join us next week: **10th October 9am—10am** for our rescheduled teleconference.

Database: 'Other Information Tab'

On the 'Participants Assessments Page', there is an 'Other Information' tab next to the 'Participant Assessment' and 'Randomisation Details' tabs.

This is where you can record information about the woman's participation in other clinical trials, either at time of consent/thereafter/participation in WILL.

Participant Assessments	Randomisation Details	Other Information
Has the woman enrolled in any other trial?		
1 - Yes		
Trial No.		
Trial Name		
Date of randomisation		
DD MMM YYYY		

als, either at time of con-randomisa-WILL, or ter during pation in

Thanks!

Please remember to complete and update this page for all women who are consented and randomised.

WILL team update

Kiran will be taking maternity leave at the end of this month, to return next year. Ruth and Mary are in the office at BCTU to continue support

FAQs

Q. Is a woman with gestational hypertension eligible for WILL if she has a normal PCR but with 'new' proteinuria on dipstick?

A: It depends.

- Yes, if she has a 'trace' of protein (with or without a normal PCR)
- Yes, if she has 1+ proteinuria and a normal PCR
