Site and participant update

As of the 31st July 2021, we have **31** sites actively open to recruitment, and we have **193** randomised participants! **13** of those were in July (with **12** consented).

Welcome to **Royal Oldham Hospital** as our newest site to join the WILL team.

Congratulations and thank you to:

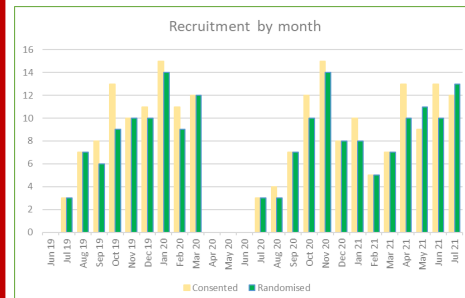

- **St Mary's Maternity Unit Poole, Liverpool Women's Hospital, Kingston Hospital, and Kings College Hospital** for consenting and randomising **1** participant each, with **Royal Berkshire Hospital** consenting and randomising their **1st** participant.
- **St Mary's Manchester** for consenting and randomising **2** participants.
- **Nottingham City Hospital** and **Western Sussex Hospitals** for both consenting **1** & randomising **2** participants.
- **Birmingham Women's Hospital** for consenting **2** and randomising **1** participant.
- **New Cross Hospital** for randomising **1** participant.
- **Southend University Hospital** for consenting **1** participant.

Congratulations to **Kingston Hospital** for recruiting the: **200th consented participant**. Hope you enjoyed your thank you gift.

Monthly recruitment

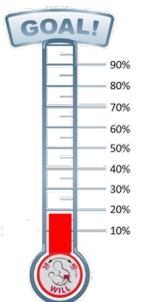

Our best ever figures saw 14 randomised and 15 consented in the months of January and November 2020. Let's see if we can overtake those numbers in August!

WILL is currently at **17.8%** of the randomised target.

There will be a prize for the site that hits **20% (216th)**

Could it be your team?!

Database: Data queries

- ⇒ Run the 'Active Data Queries' report and overdue CRF report to check for queries.
- ⇒ Complete CRFs as soon as you can when they are due.
- ⇒ Look out for the 'Data Query Management' emails, which may detail queries that cannot be raised directly on the database, e.g. queries on CRFs 2, 8 and 9.

Common queries to avoid

Screening Form: (updating and re-screening)

- ⇒ Don't forget to update the 'date of screening' to 'date of consent'. Click 'Calculate GA' and change the 'date of form completion'. (The date of consent & date of screening should be the same.)

Maternal outcome form: 'Maternal complication section'

- ⇒ Remember to answer 'Intensive therapy unit (ITU) admission' with **Yes** or **No**.

General:

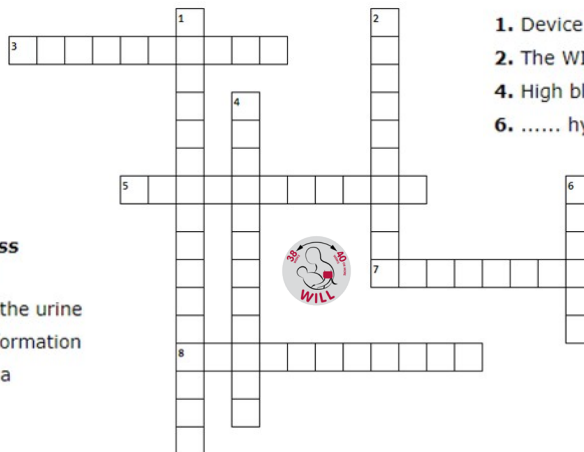

- ⇒ Answer the question 'confirm all the above have been considered' (on all CRFs)
- ⇒ When 'other' is selected check if you could select a response form the list provided.
- ⇒ Add any further information in the 'CRF notes box' to explain any information that may differ/vary e.g., date a medication was stopped and a new one commenced.

Please get in touch if you need any help with queries or completion of forms.

We all need a little break to relax. Complete this WILL activity page as a team or for your team.
There is a prize to be won so don't forget to enter!

The WILL
word-cross

- Across**
3. Antihypertensive medication
 5. Increased levels of protein in the urine
 7. System to collect outcome information
 8. Inclusion and exclusion criteria

- Down**
1. Device for measuring blood pressure
 2. The WILL trial needs 1080 of these participants
 4. High blood pressure
 6. hypertension: BP equal to or above 160/110

Quiz

All of these questions have been taken from our training page (so you will be able to find the answers!)

1. **What % of women will experience pre-eclampsia if they have:**
 Chronic Hypertension =%
 Gestational Hypertension =%
2. **To be eligible for WILL, the woman needs to have an elevated BP or be on antihypertensive medication at the time of consent:**
 True or False
3. **Can a woman with type 1 or type 2 diabetes take part in WILL?**
 Yes or No
4. **Does RaDaR support participation of women with CKD in WILL?**
 Yes or No
5. **World Hypertension Day aimed to increase awareness of high blood pressure around the world. What % of adults (globally) are aware that they have hypertension?**
 < 5%
 <25%
 < 50%
6. **A woman is eligible to participate in WILL, even if it is written in the notes that she has 'suspected pre-eclampsia'?**
 Yes or No
7. **What is the % of pregnant women that have a BMI of 30 or above at the beginning of their pregnancy?**
 Around 25%
 Around 52%
 Around 30%
 Around 10%
8. **Where was the study carried out that looked at why women chose not to take part in clinical trials?**
 Birmingham
 Northampton
 London
 Southampton
9. **What were the 5 strategies identified to help remove the barriers to taking part in research?**
 Building trust

Once completed scan and email us and you will be entered into the prize draw!!
