Happy Easter to you all!

'WILL easter egg hunt' - can you find the 10 eggs that have been hidden in the newsletter?

## Site and participant update:

As of the 31st March 2022, we have **41** sites actively open to recruitment. We currently have **297** randomised participants! March was our best month yet **21** consented participants and **17** randomised. **This is fantastic.**

Congratulations and thank you to the following sites:  
**Walsall Manor Hospital** for consenting and randomising their **1st** participant.  
**St Mary's Poole**, for consenting **4** and randomising **3** participants.  
**St Mary's Manchester** for consenting and randomising **3** participants.  
**Bradford Royal Infirmary & Great Western Hospital** for consenting and randomising **2** participants each.  
**East Surrey Hospital** for consenting **2** participants and randomising **1** participant.  
**Singleton Hospital, Chesterfield Royal Hospital, QMC Nottingham, St George's University Hospital & Cwm Taf Morgannwg UHB** for consenting and randomising **1** participant each.  
**Royal Berkshire Hospital & Croydon University Hospital** for consenting **1** participant.  
 to **The Queen Elizabeth Hospital King's Lynn**, our newest site to open.

## Recruitment Milestone:

Next milestone:  
**300th randomised participant:**  
We only need **3** more randomised participants  
A gift will be sent out to the site that reaches this.

## Reconfirmation of eligibility & Randomisation form:

Please complete for **ALL** consented participants, even if **NOT** able to randomise.

Select participant via the 'Patient' & then 'Randomise patient' tab.

- Reasons that women cannot be randomised include: A clinical need for birth before 40<sup>+</sup> - new plans made for birth, ≥38<sup>+</sup>, already given birth spontaneously.
- Complete 'form completion details' and 'save'.
- On the Search Patients page (allocation column) you will see ' **Not randomised - form completed on ..... (DATE)**'

Please do not hesitate to get in touch if you need any help completing this from.  
**Other forms to complete:** Baseline, Delivery, Maternal Outcome and Postpartum Management and Neonatal Forms.

## Data queries: Manage queries tab:

Use this process when **confirming** if data entered are correct.

- Select an 'audit reason'
- Click on **Manage Queries** to take you to the **Data Queries** page.
- For each Active query, select the query from the table.
- Add a comment to the comments box, e.g., *Checked and correct*
- Add your initials.
- Change the query status to **Pending Resolution** and Click Save

**Remember:** that if you have corrected or added data on the form itself, you will not need to go through the Manage Queries process to change the status to **Pending Resolution**, as once you log out, the query status will automatically change.

## WILL PPI group: welcome to our members

We held our first meeting on the 22nd February. The initial aim of the group is to develop an infographic leaflet/poster for women/partners regarding the complications associated with chronic or gestational hypertension in pregnancy.
