

## 2<sup>nd</sup> Birmingham Business School Responsible Business Academic Symposium 2021

### Photography Exhibition – Climate Change

#### Call For Contributions

The UK is preparing to co-host COP26, the UN’s climate change conference seeking to encourage urgent global climate action: the 2<sup>nd</sup> BBS Responsible Business Academic Symposium will also address this important topic. As part of the symposium, which is running from 21<sup>st</sup>-23<sup>rd</sup> September, we are running a photography exhibition to encourage reflection and further thought on the challenges posed by climate change to business and society. This is an open call and participants are encouraged to submit images on any aspect of this broad topic. You may wish to document the reality, causes or consequences of climate change or focus on a particular aspect, for example energy, transport, materials or waste. Alternatively, you may wish to highlight the potential and possibilities for change, images that might reveal hope or a way forward.

**Who can participate?** All staff and students of the University of Birmingham are encouraged to contribute to the exhibition.

**Where will the exhibition be shown?** Initially the exhibition will be hosted online, on the Symposium website.

**How do I submit?** Images should be submitted by email to [bbs-rb-symposium@contacts.bham.ac.uk](mailto:bbs-rb-symposium@contacts.bham.ac.uk).

**When is the deadline?** Sunday, 15<sup>th</sup> August 2021.
