

Five examples of real student pathways in Natural Sciences and Liberal Arts and Sciences

Please note:

- Green denotes a LANS module
- Peach denotes the student's major
- Purple denotes non-major subjects

The pathways below are broken up according to subjects, not modules (e.g. in the first pathway, the student took two 20-credit modules in Biosciences in the first year). The numbers in parenthesis refer to the credits for each module (e.g. a 20-credit module requires twice as much effort as a 10-credit module). We have also included the student's year abroad institution in each case.

Student A: BSc in Natural Sciences (Biosciences)						
Year 1	Compulsory Core: Liberal Arts and Sciences (20)	Biosciences (40)		Psychology (20)	English Literature (20)	Art History (10) History (10)
Year 2	Compulsory Core: Liberal Arts and Sciences (20)	Biosciences (60)			Art History (20)	Philosophy (20)
Year 3	Lund University, Sweden					
		Biosciences (60)		Psychology (30)	Film Studies (15)	Gender Studies (15)
Year 4		Biosciences (80)			Psychology (20)	French (20)

Five examples of real student pathways in Natural Sciences and Liberal Arts and Sciences

Student B: BSc in Natural Sciences (Environmental Science)						
Year 1	Compulsory Core: Liberal Arts and Sciences (20)	Environmental Science (20)	English Literature (40)		History (10)	History of Art (20) Philosophy (10)
Year 2	Compulsory Core: Liberal Arts and Sciences (20)	Environmental Science (60)			Biosciences (20)	Philosophy (20)
Dalhousie University, Canada						
Year 3	Environmental Science (60)			Biosciences (30)	Marine Science (15)	Sociology (15)
Year 4	Environmental Science (60)			Biosciences (20)	Liberal Arts and Sciences Research Project (40)	

Student C: BSc in Natural Sciences (Psychology)					
Year 1	Compulsory Core: Liberal Arts and Sciences (20)	Psychology (20)	Biosciences (40)		English Literature (20) Italian (20)
Year 2	Compulsory Core: Liberal Arts and Sciences (20)	Psychology (40)		Biosciences (20)	
Amsterdam University College, Netherlands					
Year 3	Psychology (60)		Biosciences (36)		Creative Writing (12) Sociology (12)
Year 4	Psychology (80)			Biosciences (40)	

Five examples of real student pathways in Natural Sciences and Liberal Arts and Sciences

Student D: BSc in Natural Sciences (Human Biology)					
Year 1	Compulsory Core: Liberal Arts and Sciences (20)	Human Biology (60)		Politics (20)	Psychology (20)
Year 2	Compulsory Core: Liberal Arts and Sciences (20)	Human Biology (40)	Biosciences (20)	Philosophy (20)	Psychology (20)
University of Melbourne, Australia					
Year 3	Human Biology (45)		Public Health (45)		Philosophy (15) Marine Science (15)
Year 4	Human Biology (60)		Biochemistry (20)	Environmental Sciences (20)	Psychology (20)

Student E: BSc in Liberal Arts and Sciences (Biological Sciences)					
Year 1	Compulsory Core: Liberal Arts and Sciences (20)	Biosciences (60)		English Literature (10)	Medical Sciences (10) Philosophy (20)
Year 2	Compulsory Core: Liberal Arts and Sciences (20)	Biosciences (60)		Art History (20) Philosophy (20)	
Loyola University, New Orleans, USA					
Year 3	Art (60)		Biology (15)	Media Studies Film Studies	
Year 4	Gender Studies (20)	Biosciences (60)		Liberal Arts and Sciences Research Project (40)
