

# STUDENT PROFILE

**NAME:** Kaixin

**STUDY:** MSc Computer Science

**NATIONALITY:** Chinese

## Why did you choose to study at the University of Birmingham Dubai?

The teaching quality, learning support, career development and facilities provided by UoB Dubai are the best I have ever experienced. All in all, I think it was the best learning experience of my life.

## Why did you choose to study Computer Science?

The computer is an important tool to change human life, especially in modern society. The extensive application of advanced computer science and technology such as artificial intelligence, big data and blockchain will greatly promote the development of society.

## What has your student experience been like?

The university has many free services for student support, such as careers, counselling and community activities. They have events such as parties, games, billiards and other entertainment; every time there is a large festival, such as Chinese New Year or Diwali, UoB Dubai holds a free party which lets everyone come together to celebrate.

Studying in Dubai gave me the courage to discover the world. During the winter vacation, I took a trip to Turkey and Georgia by myself, which completely changed my world view and made me see the world from a different angle.

**Kaixin, MSc Computer Science**
