STUDENT PROFILE

NAME: Sonali
STUDY: BSc Computer Science
NATIONALITY: Indian

Why did you choose to study at the University of Birmingham Dubai?

I am really impressed by the quality of education the University of Birmingham Dubai provides and the global career opportunities it paves a way to, being a world top 100 university.

Why did you choose to study Computer Science?

Computer science is a field closely related to our day-to-day lives, starting from mobile applications to self-driving cars or to even simple logic problems, the base of everything is data analysis and algorithms. I personally aspire to contribute to the field of Artificial Intelligence and perhaps even create innovative humanoid robots or work at a global software company in the future.

What has your student experience been like?

Our course content includes mathematics, programming in Java, artificial intelligence, data structures and algorithms and logic and computation. Our Professors are very supportive; they provide us with personal support during and after class hours and ensure that we understand the concepts being taught.

> "Studying Computer Science gives me a deeper insight on the underlying principles of modern day technology and how things actually function behind the screen.
>
> Sonali, BSc Computer Science
