Business and Organisation Collections

The Cadbury Research Library at the University of Birmingham holds over 4 million archives and manuscripts. This A-Z guide lists the records we hold from a wide range of organisations. These include missionary societies, Christian and other youth organisations, local authority associations, political organisations and trade associations. Other organisational archives include a number relating to Christian education and training and special education and to British athletics. Business records, mostly relating to the West Midlands and records of publishers and records of publishing presses are also represented.

To undertake a more extensive search on our archival holdings, and search our 200,000 strong rare book collection, visit [our catalogue webpage](#).

A
