Student Archive

The Cadbury Research Library at the University of Birmingham holds over 4 million archives and manuscripts. This A-Z guide gives details of the students whose papers we hold.

These papers typically consist of course notes, essays and examination papers; correspondence; photographs and other material relating to individuals' time as students, and mostly relate to students who studied at the University during the first half of the twentieth century, although there are also papers of some later students, and a small amount of material relating to Mason College students.

To undertake a more extensive search on our archival holdings, and search our 200,000 strong rare book collection, visit [our catalogue webpage](#).
