

KG@B 2015

**International Conference on
Groundwater in Karst
20 - 26 June 2015**

University of Birmingham

John Gunn and Ian Fairchild, convenors

<http://www.birmingham.ac.uk/generic/kgatb/index.aspx>

Tuesday June 23rd 14:00-18:00

Field trip: Dudley canals and historic limestone mines

Leader Graham Worton, Keeper of Geology, Dudley Museum

JOINING INSTRUCTIONS

The coach will arrive at the Main Entrance to the University, the East Gate (see map below) at 14:00 and will depart as soon as everyone is on board. You will receive a printed copy of the field guide which will also be on the usb-stick that you will have received at registration.

English weather is notoriously unpredictable, even in June and you may well need waterproof clothing. You will be walking in the Wren's Nest National Nature Reserve:

(<http://www.dudley.gov.uk/resident/environment/countryside/nature-reserves/wrens-nest-nnrwrens-nest-nnr/>)

We will mostly be on paths but you are advised to wear strong shoes.

The canals are visited by barge and it is cool underground so even if, as we hope, it is a beautiful sunny day please bring something warm to wear.

We are aiming to be back at the University by around 18:00.

If you have any questions please email John Gunn (j.gunn.1@bham.ac.uk) and if you have problems on the 23rd please phone John on 07890 291333.

Look forward to meeting you,

Graham
